PARCEL POST
Size of package that can be sent by Parcel Post cannot be over 84 inches in length and girth combined.
The rate of postage on mailable parcels of seeds, cuttings, bulbs, roots and plants weighing 8 oz. or less, shall be 1c for each 2 oz. or fraction thereof, regardless of distance, and on those weighing more than 8 oz. the pound rates shown in table shall apply.

# WEIGHTS BY PARCEL POST

Parcels up to 70 lbs. can be sent by Parcel Post in the local, 1st, 2nd and 3rd zones and up to 50 lbs. in all other

zones.

To points further than the 2nd zone on weight of over 10 lbs., the charge by freight or express is usually more

# HOW TO ORDER BOLGIANO'S SEEDS-READ CAREFULLY

We Fill Orders of All Values, from the Smallest to the Largest, and All Receive the Same Careful and Prompt Attention.

Prices in this Catalogue are Subject to Market Changes—Special Quotations Promptly Given,

FREE DELIVERY BY MAIL. We deliver free to any postoffice in the United States all Vegetables and Flower Seeds offered in this Catalogue by the packet, onnce, quarter-pound, and all varieties of Tomato and Cabbage Seed in any size package, including pounds. On all other seeds for half-pounds and upwards the Parcel Post table will

for half-pounds and upwards the Parcel Post table will apply.

When Best to Order. We are fully equipped for filling orders and sapplied with New Crop Seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay.

The Cost of Your postoffice or express money order may, on all orders over \$1.00, be deducted from the amount.

One or Two Cent Postage Stamps. We will accept the same as cash. Do not send other kinds.

If You Live on a Rural Mail Route, just give the letter and the money to the mail carrier and he will get the money order at the postoffice and mail it in the letter for you.

you. Use Our Order Blank If You Have One. If you haven't

Use Our Order Blank If You Have One. If you haven't one, use any plain paper.

Tell Us In Your Own Way What You Want, in any language. Enclose in your letter the amount of money, either a postoffice money order, which you can get at the postoffice, an express money order, which you can get at the express office, or a draft, which you can get at any bank, or put the money in your letter, take it to the postoffice and tell postmaster you want it registered.

Be Sure to Sign Your Name and Address. If by boa' or railroad say distinctly which host or railroad to ship by, and if freight has to be prepaid add this amount to your order to prevent delay.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase Seeds in unusually large quantities should write for special prices. We have made prices very low in this Catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at lower price than by the single pound or bushel. In writting give us a list of quantities and varieties required, and we will return list promptly with our lowest price for the lot.

Always Remember That We Can Save You Money, No Matter Where You Live. Write us about any seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us and we will tell you.

AS TO WARRANTY, We Believe Our Seeds will produce for you the best crops you have ever grown, and to show you what confidence we have in our Seeds, if they prove otherwise than represented by us, we will refill your order free of charge; but it must be agreed that we do not warrant the crops grown therefrom, either expressed or implied, as to description, purity, productiveness or any other matter, and we will not be in any way responsible for them. If the purchaser does not accept our seeds, etc., on these terms, they are at once to be returned and the money that has been paid for the same will be refunded. We appreciate your orders and they receive our prompt attention. attention.

GUARANTEE. We Guarantee All Shipments of Seeds, including Parcel Post packages, when remittance accompanies order, to reach the purchaser in good condition.

# Bolgiano's Field Seeds for Fall Planting

# Bolgiano's "Big Crop" Seed Wheat

Please Write Us for Lowest Prices on all Seed Wheat.

Special Quotations Promptly Given

Leap's Prolific—A splendid new variety. It is remarkable for its productiveness and fine quality of grain. The grain is flintier and of better milling qualities than the ordinary varieties. It is very uniform in its growth, stiffstrawed, healthy, strong grower and early to ripen. One thing particularly noticeable about this variety is its stooling qualities, it being particularly superior in this respect, producing more stalks to plant than the ordinary wheats. This, with the fine, long heads which it produces, means an increase in productiveness, and farmers who have sown this variety are enthusiastic in its praise, claiming it to be the best and most productive variety now on the market. We can recommend this wheat as being superior to other beardless wheats. It has proven its merit in Tennessee, North Carolina, Virginia and Maryland. The yield averages on good land nearly ten bushels to the acre more than other smooth-head wheats.

#### SMOOTH-HEAD OR BEARDLESS VARIETIES

Harvest King. Grain is a little larger and it is better milling wheat than other short berry wheats. It is really a beardless long berry variety, the grain being as large and s good, if not of better milling qualities than the Lancaster and Fulcaster.

Fultzo Mediterranean. This is a cross of the Fultz and Mediterranean Wheats. The berry is plump and red; chaff white and smooth. Heads of medium length, very compact and well filled. The Fultzo-Mediterranean stools well; the straw is long and extremely stiff. Coming from two vigorous, hardy varieties, it is believed to have derived the good qualities of both. It ripens early and has proven a variety of extreme hardiness and great productiveness.

Currells Prolific. It is highly recommended by the Kansas, Maryland and Pennsylvania Experiment Stations, Yields from 30 to 40 bushels side by side with the varieties vielding 20 to 25 bushels. This wheat is giving unbounded satisfaction throughout the South.

Blue Stem. Fine beardless wheat in high favor in the South. Makes best quality of flour.

Miracle or Stoner—This new wheat originated in the Valley of Virginia, and is one of the best yielding and most uniform growing of bearded wheats. It is particularly recommended on account of its remarkable stooling-out properties. The claim has been made that it is not necessary to sow more than one-half or three-fourths of a bushel per acre to give the same results as ordinary wheat. We will state, however, that on our own farms we have found the best results from sowing it at the rate of one bushel per acre. It makes a fine, heavy grain, of excellent milling qualities, and has proved with us to be one of the best and most prolific of bearded wheats. We recommend it with confidence to our customers.

China—The China Wheat is a new beardless variety which has been quite largely grown in Maryland the past year, with satisfactory results, larger yields being reported by some farmers even than from the Leap's Prolific.

#### BEARDED VARIETIES

Dietz Mediterranean. .A superior long berry variety that has yielded well and given the best results in this section. It is one of the best milling wheats in existence and millers always pay the top price for it. It stands adverse conditions of weather better than almost any other

Red Mediterranean. This splendid wheat is very popular in Maryland, Virginia and Pennsylvania. It yields 25 or more bushels of plump grain to the acre and produces over a long ton of straw per acre. It is very heavy, weighing 61 pounds to the struck bushel.

Fulcaster. This is a very valuable and popular cross between the Fultz and the Lancaster. It is one of the most reliable and best yielding varieties. Has exceptionally large heads, stands up well and has proven rustiproof. It brings the highest market price as a milling wheat wheat.

Lancaster. An old standard variety of long berry wheat, greatly prized by millers, and always selling at the highest market price. It is the best variety for low or stiff grounds.

Harvest Pride. This long berry wheat is known for its enormous yields.

#### WINTER RYE

For Winter pasture, early green feed and for turning under as well as for grain. Winter Rye is used all over the South. It can be sown with success as early as July and as late as the last part of December. It is often sown at the last working of corn and cotton and makes an excellent and successful crop grown in this way; it also keeps the soil in better condition for succeeding crops by preventing the leaching by the winter rains. Please write for latest prices.

### WINTER BARLEY

Barley makes one of the largest and most nutritious crops of pasture or hay. If cut before it is fully headed up it will cure splendidly. In nutritious and feeding qualities it is superior to Timothy Hay. During the Winter and Spring it can be constantly grazed and is ready to cut two weeks ahead of wheat. Please write for latest prices

Bolgiano's "Gold Brand" New Crop Crimson Clover.

Crimson Clover Seed

Crimson Clover. Saves Fertilizer bills and increases the Farmers' Income Millions of Dollars. Sow liberally, either alone or at the last working of corn or cotton. It makes the land rich in nitrogen and humus of vegetable matter and puts it in the very best condition for the crops which follow. It also makes a Fine Winter Cover Crop. A Good Early Forage Crop. An Excellent Grazing Crop During the Late Fali, Winter and Early Spring. A Splendid Soil Improving Crop. Plowed under early in the spring it increases the yield of corn, tohacco, cotton or other crops which follow it to a wonderful extent. Thousands of Farmers throughout the Middle and Southern Sta'es are rapidly increasing their acreage of Crimson Clover, they have realized its great value—a crop turned under is equal to a heavy application of stable manure. The seeds cost so little per acre and the results considered superior even to Cow Peas. Sow during July, August or September, 15 pounds per acre, If Crimson Clover is cut just as it is coming into bloom, before the seed forms, it will make a first class Hay Crop. Crimson Clover can he used for grazing, early green feed or hay even then the condition and productiveness of the land upon which it is grown will be wonderfully improved. For Fruit Growers, Corn Growers, Cotton Growers, Tobacco Growers, Dairymen, Truckers and Market Gardeners, Stock Breeders and Large Powltrymen. Crimson Clover has a marvelous value that as yet has only been partially understood and appreciated. Share this year in the Great Saving Crimson Clover is annually making for thousands of farmers. New crop seed, large, bright, golden berries, fine, plump, well matured. Immediate shipment Bolgiano's "Gold" Brand Fancy Crimson Clover. I Lb. 22c (Postpaid 28c). 10 Lbs, and over 18½c. 100 Lbs. 17½c lb. (\$10.50 bu. of 60 lbs.) Prices fluctuate. Will quote yow prices at any time upou request. quote you prices at any time upou request.

# Dwarf Essex Rape

Makes Splendid Fall, Winter and Spring Pasturage-Fine for Cattle, Sheep and Hogs.

Rape for fall sowing should be put in in July, August or September. It makes a large-yielding, nutritious, succulent green feed or pasturage all through the fall, winter and early spring. The fattening properties of Rape are said to be very much better than those of clover, and it makes a first-class crop either for sowing alone or for grazing during the fall and winter; can be sown with Crimson Clover. Rape can be successfully sown both in the fall and spring. Early fall seeding, however, gives the best results Rape is best sown in drills at the rate of 3 to 5 pounds per acres or it can be sown proadcast, when from 6 to 8 pounds per acre should acre, or it can be sown broadcast, when from 6 to 8 pounds per acre should be used. 1 Lb. 15c (Postpaid 20c). 10 Lbs. and over 11½c. 100 Lbs. 10½c lb. Prices fluctuate. Will quote you prices at any time upon request.

# Hairy Vetch (Vicia Villosa) PURE SEED VERY SCARCE

Vicia Villosa succeeds and produces good crops on poor sandy soils as on good land; grows to a height of 4 to 5 feet. It is perfectly hardy throughout the United States, remaining green all winter; should be sown liberally from July to November, with winter rye, oats, wheat or barley, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Crimson Clover, and a full crop can be taken off the land in time for planting spring crops. Every Dairyman and Stock Breeder in the United States should have a field of it, and if you try it once and see its value you will never be a season without it. It is exceedingly nutritious, eaten with relish and may be fed with safety to all kinds of stock. Crop short, Write for prices.

# Cow-Horn Turnip

326. Long White Cow-Horn Turnip. It has been found by practical farmers that there is no hetter way for aerating and adding humus to the soil in the Winter time than by sowing Long White Cow-Horn Turnips. They can be fed to the stock as they are needed, and the rest allowed to

remain in the ground and rot, having a valuable fertilizing property. They grow nearly half out of the ground and are carrot-like in form. Sow two pounds of seed to the acre, broadcast. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 25c. Lb. 85c. 5 Lbs. at 75c lb.

## Mammoth Russian Sunflower

1211. Sunflower has proved to be the best paying crop of anything that has been planted during the last two years. Sow in March to July, 5 to 10 lbs. per acre. Plant with Corn drills in rows 3 to 3½ feet apart and thin to 1 plant every 18 to 2½ inches, cover very lightly, not over 2 to 2½ inches, the less the better. Lb. 20c. 10 Lhs. 18c lb. 100 Lbs.

Spring Vetches or Tares

spring vetches of lates

1150. Closely associated with Peas in character. Used for the same purpose as Hairy Vetch, but must be planted in the Spring wherever the Winters are severe, as this variety is not so hardy as Hairy Vetch. Highly valuable for solling or for green manuring. Sometimes grown with Oats for mowing and feeding to stock. Thrives best in well-drained soil, doing best in loams or sandy loams, though excellent crops are grown hoth on sandy and gravelly soils. Sow alone 70 to 90 pounds per acre, and if with Oats 60 pounds of Vetch and 40 pounds Oats. Sow in Spring while the ground is cool and moist or in early Autumn. "Gold" Brand, 1 lb. 12c (Postpaid 18c), 10 Lbs, of over \$\frac{1}{2}\char{\text{c}} \text{lb}\$. Prices fluctuate. Will quote prices at any time you request.

Oregon Vetch

1275. Same as Spring Vetch, but owing to its hardiness is known as Oregon or Winter Vetch. It can be planted in the Fall in all of the Southern States as well as in the Spring with results about the same as Hairy Vetch. Sown alone, sow 70 to 90 pounds per acre. Sown with Oats, sow 60 pounds Vetch and 40 pounds Oats. "Gold" Brand, lb. 12c (Postpaid 18c). 10 Lbs. or over 8½c lb. 100 Lbs. 7½c lb.

Prices fluctuate. Will quote prices at any time upon request.

Sow Scarified Seed and Increase Your Yield We Will Scarify Your Sweet Clover or Alfalfa for one cent per pound above our listed prices.

One-Year-Old 5-Pound Vetch Root

Enormous Crops of Hay are Produced from Bolgiano's "Gold" Brand Alfalfa Seeds

# ALFALFA

ALFALFA

One of the most valuable leguminous hay and forage crops cultivated in the United States. It has been grown experimentally and successfully in every State and Territory. It is a strong perennial plant, which is able to live thirty years or more under favorable conditions when properly cared for.

The proper development of Alfalfa largely depends on the soil. It can he grown on many kinds. From sand or sandy loams to heavy clays. It thrives best in deep loams with open, porus sub-soil, where tap roots are not hindered, as the root penetrates to a considerable depth. The quality of the sub-soil is of great importance. If it is compact and impenetrable it will be a serious obstacle to successful Alfalfa growing. The soil must, therefore, be kept well drained, especially in early Spring. In poorly drained field Alfalfa will be injured and sometimes killed in the low spots where water has accumulated. Alfalfa, like other leguminous plants, depends on the bacteria or nitrogen for its vigorous development. Therefore, it is necessary to use bacateria inoculation in treating the seed hefore sowing. This will supply the young plants with the necessary nitrogen for a quick start, and will prove advantageous to your stand of Alfalfa.

The seed bed should be thoroughly prepared. One of the best ways to prepare your land for Alfalfa is to sow cow peas and soja beans ahout May 15th, plow the forage under, harrow and roll immediately after plowing to hold the bacteria under soil that are in the nodulus on the roots of the cow peas and soja beans. This forage should be plowed under not later than the 15th of August. After the rolling, ground stone lime should be used at the rate of 1.000 lbs. per acre. It will be best to apply the lime through a drill and roll immediately after liming. This will give you a solid seed bed for sowing your Alfalfa the last of August or the first of September. Twenty pounds should be used to the acre and be very careful not to cover the seed more than one-half inch.

Bolgiano's "Gold" Bran

1130. Medium Red Clover. This is regarded as the most valuable of the Clover family and is largely used for pasturage and hay. Clover adds greatly to the fertility of the land on which it is grown. It does not exhaust the soil, but enriches it. It makes two crops each year. The first is usually cut when it is in blossom for hay. The last crop may be harvested for seed, cut for hay or plowed under to add fertility to the soil. For Hay it is particularly well adapted for sowing with Orchard and Tall Meadow Grass, as it ripes at the same time, and sowing these three grasses together will give larger yields and better quality hay than sowing either alone. It is also largely sown with other grasses, both for hay and pasturage. Information as to qualities required per acre when sown in combination with other grasses will be found under the heading of Orchard Grass, Tall Meadow Oat Grass and Timothy. When sown by itself, sow 10 to 12 lbs, to the acre, either in the Spring or Fall or at the last working of Corn. Price: "Gold" Brand Fancy Red Clover Sced, Lb. 50c (Postpaid 55c.). 10 Lbs. or over 48c lb. 100 Lbs. at 47c. (\$28.20 per bu. of 60 Ibs.). Prices fluctuate. We will quote prices at any time upon rquest.

1131. Mammoth or Sapling Clover. Is similar to Red Clover in appearance of seeds and habits of growth, the difference being larger growth and later maturing. It is often used for hog pastures. As a soil improver to plow under it is considered superior on account of its extra growth. It is a good variety for thin soils or to seed with Timothy, Meadow Fescue, Herd's Grass or Red Top, as it matures about the same time as these grasses. Sow 10 to 12 lbs. to the acre when sown alone. When sown with Timothy use 6 lbs. Sapling Clover and 8 lbs. Timothy to the acre. Price: "Gold" Brand Fancy, Lb. 50c (Postpaid 55c.). 10 Lbs. or over 48c lb. 100 Lbs. at 47c lb. \$28.20 per bu. of 60 lbs.) Market fluctuates. We will quote prices at any time upon request.

1132. Alsike Clover. Alsike Clover grows thicker and is finer in growth than Red Clover, making better hay and probably more and better grazing. It is also hardier, resisting extremes of heat and drought and also severely cold weather to a remarkable extent. It is perennial and does not Winter kill. It succeeds on a variety of soils, light upland loamy lands as well as stiff bottom lands. It will do better on moist land than any other Clover. It is surer to give a good stand and make good crops than either the Red or Mammoth Clover, and in sections where these Clovers have been uncertain Alsike is superseding them altogether. When sown with other grasses it forms a quick undergrowth and greatly increases the yield. It is well adapted for sowing with Red Clover, Timothy, Herd's Grass, as it matures with these grasses, but flowering a little later than Red Clover. Price: "Gold" Brand Seed, 1 Lb. 55c (Postpaid 60c.). 10 Lbs. or over 51c. 100 Lbs. at 50c lb. \$30.00 hu. of 60 lbs.) Prices fluctuate. We will quote prices at any time upon request.

1133. White Clover. This is largely used in lawn and permanent pasture mixtures, and is indigenous to the soils throughout the Middle and Southern States. It makes a small, close, compact growth, covering the ground like a carpet. It affords excellent food for bees. Sow in either Spring or Fall. When sown by itself, at the rate of 5 to 6 lbs, per acre. It is better, however, sown in mixture with other grasses. Price: "Gold" Brand Fancy, 1 Lh. 45e (Postpaid 50c.). 10 Lhs. or over 42c. 100 Lbs. at 41c lb.

1113. Japan Clover. We do not recommend this Clover for land that can be successfully grown in any grasses or clover, hut on waste land or poor, worn-out soils it will furnish excellent, nutritious pasturage. Sow at the rate of 10 lhs. per acre, in March or April. Lh. 30c (Postpaid 35c.). 10 Lhs. at 27 lb. 100 Lhs. at 26c lb. Prices fluctuate. We will quote prices any time upon request.

1205. White Blossom Sweet Clover or Bokhora. (Hulled.) Melilotus Alha. A strong growing perennial of value for green manuring, especially South; also largely grown for the excellent food it affords throughout its season for bees. Sweet Clover will provide more feed per acre than any other form of grass. One farmer declares that five acres of Sweet Clover varied more stock than 40 acres of Timothy and Clover would. Sweet Clover stands drought well and does not cause stock to bloat. Sweet Clover is especially valuable for building up worn-out soils and grows almost anywhere except in acid soils. Sweet Clover is a legume, having the same bacteria on its roots that grow on Alfalfa, consequently it supplies nitrogen to the soil and prepares the way for Alfalfa. Sow 15 to 20 pounds per acre. "Gold" Brand, Lb. 30c (Postpaid 35c.). 10 Lbs. at 25c lb. 100 Lbs. at 24c lb. Prices fluctnate. We will quote prices any time upon request.

BOLGIANO'S "BIG CROP" TIMOTHY

#### TIMOTHY

TIMOTHY

1117. Timothy. Of Hay Grasses Timothy is one of the most popular, nutritions and salable. On clay or heavy loams, lowlands or in mountainous districts, provided there is an abundance of moisture, it produces the very best results. On sandy or light loamy ground it does not do so well as Orchard, Tall Meadow Oat or Red Top Grass. If grazed or cut too close, the stand of Timothy will be seriously injured, besides it does not form as good grazing as many other grasses. The yield of Hay is from 1½ to 3 tous per acre. Timothy requires good-hand to make good crops, It does not root as deeply and is not considered as much of an improver as other grasses, consequently should not be sown on land deficient in humns or vegetable matter nor on soils of a light-or sandy nature. Clovers grow well with Timothy and aid it by supplying nitrogen. Timothy alone a peck (11 lbs.) to the acre or with Clover 10 lbs. Timothy, 6 lbs. Clover (either Mammoth Clover or Alsike Clover preferred, as they mature at the same time as Timothy), 6 lbs. Fancy Red Top, ½ bu. Meadow Fescue. Together these will produce most excellent hay, also nutritions and abundant pasture in good loamy clay or low ground soils; 8 lbs. Timothy and 6 lbs. Clover when sown together. Prices: "Gold" Brand, Lb. 20c. (Postpaid 25c.). Pk. \$1.75. ½ Bu. \$3.25. Bu. \$6.10. 5 Bu. lots and over at \$6.00 per bir. Prices inctuate. We will quote prices at any time upon request.

#### KENTUCKY BLUE GRASS

KENTUCKY BLUE GRASS

1118. Kentucky Blue Grass. This Grass is not only the best for lawn purposes, but makes the sweetest and most nutritious pasture for all kinds of stock. Kentucky has long been famous for its high-bred horses and its Blue Grass pastures, it is now possible to establish on most any farm a Blue Grass pasture of greenest verdure which will give very profitable returns. This Grass is the first to start up in the Spring, and remains green until snow flies in the Fall. It is very hardy and is uninjured by cold or dry weather, hot sun or tramping of hoofs. The roots are so thick and stout that they form a tough sod. Blue Grass requires about two years to get well started, and for that reason it is often sown in mixture with other Grasses. It will do well on almost any land, but does best on well-drained clay laud. Sow in the Fall or Spring at the rate of two or three bushels per acre. Price: "Gold" Brand Seed, Lb, 28c (Postpaid 33c.). Pk. \$1.10. Bu, \$3.25. Prices fluctuate. We will quote prices at any time wpon request.

any time upon request.

CANADA BLUE GRASS

1120. Canada Blue Grass. Resembles somewhat the Kentucky Blue Grass. It will thrive even on hard clay soil where there is not quite enough lime and fertility for Kentucky Blue Grass, and having an excellent root development forms a heavy turf. At the Maryland Experiment Station this Grass remained a luxuriant green during the hottest Summer when other Grasses were materially affected by the heat. Being a Grass of Canadian growth it stands the cold weather admirably. Canadian Blue Grass does not thrive when planted with Clover. Red Top and Orchard Grass are the best for mixing with it to grow on inferior soils. On good land it becomes tall enough for hay, and as it shrinks very livtle in drying the hay is heavy for its bulk. Grows from one to two feet high. Sow 30 lbs, of seed to the acre. Price: "Gold" Brand Seed, Lb. 20c (Postpaid 25c.). Pk. 75c. Bu. \$2.50. Prices fluctuate. We will quote prices at any time upon request.

#### RED TOP OR HERD'S GRASS

RED TOP OR HERD'S GRASS

1111. Red Top or Herd's Grass. This Grass makes excellent pasturage and good crop of fine quality hay, and succeeds on a greater variety of soils than any other in general use, giving very good results on light soils. The place for Red Top is on rather moist soil, deficient in lime and fertility. It will grow where the soil is too poor for Timothy and Kentucky Blue Grass. It is a good variety to sow with Timothy and Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close, as if it is allowed to grow np to seed the cattle dislike it. On good soil it grows about two feet high; on poor, gravelly hand about half that height. It has been grown successfully even on alkali land where other grasses failed. Red Top, commonly known as Herd's Grass, should be extensively grown, especially with other grasses.

Grass, should be extensively grown, especially with other grasses.

Red Top has interlacing, thick roots which made a firm sward not likely to suffer injury from the hoofs of animals. It stands the effect of drought better than Timothy. It is more permanent if it is grazed off and not allowed to go to seed. For the best quality of hay, it should be cut when in full flower. It is more easily cured than almost any other grass. It is rather late in starting in Spring and matures its crop the same time as Timothy. When it gets well established it spreads and will gradually supplant other Grasses. Red Top is also one of the best grasses for hillsides or lands likely to wash. Our Gold Brand of the Fancy Clean Red Top is of extra fine quality, and carefully cleaned from impurities. We can also furnish the Choice and Prime Fancy Red Top as usually sold. It requires about 8 to 10 pounds to seed an acre of the Fancy Clean seed. When sowing with Timothy, sow 6 pounds of the Fancy Clean Seed and 8 pounds Timothy per acre. It can be sown cither in the Spring or Fall. "Gold" Brand Fancy Seed, Lb. 20e (Postpid 25c.) 10 Lbs. or over 17½c lb. 100 Lbs. or over 16½c lb, \$5.00 for 30-lb. bu.). Prices fluctuate. We will quote special prices at any time upon request.

MEADOW FESCUE, RANDALL OR ENGLISH BLUE.

#### MEADOW FESCUE, RANDALL OR ENGLISH BLUE GRASS

GRASS

1122. Meadow Fescue, Randall or English Blue Grass. It makes a most excellent hay and pasturage Grass, and is particularly valuable for Fall and Winter pasturage, as it remains green throughout the Winter. It is also a splendid Spring and Summer Grass and usually makes more and thicker leafage than any other Grass. Grows 2 to 3 feet high, but not in tufts like Orchard Grass. The hay is very nutritious and cattle thrive on it whether dry or green. Succeeds even in poor soil, and as the roots penetrate deep, from 12 to 15 inches, it takes extremely dry weather to affect it. It succeeds well in nearly all sections of the South, and should be very largely used for pasturage and hay mixture, being especially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow Oat for permanent pasture. Sow either in the Spring or Fall at the rate of 2 bushels to the acre if sown by itself. When sown with Red Top or Timothy sow 1 bushel (14 lbs.) Meadow Fescue, 5 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for grazing mixture with Orchard and Tall Meadow Oat Grass, add half a bushel each of these two Grasses. Price: "Gold" Brand, Lb. 26: (Postpaid 31c lb.), 10 Lbs. or over 22c, 100 Lbs, or over 21c lb. Prices fluctuate. "To will quote special prices at any time upon request.

# Grass and Clover Seed Mixtures for Hay and Pastures

Parcel Post Rates, see Page 2

These Mixtures give the very best and most satisfactory results to customers, and our trade in them is increasing rapidly. The advantages of sowing grasses and clover seed in mixtures has long been recognized and the practice is increasing to a very remarkable extent throughout the South. We are the pioneer seedsmen in Baltimore in putting up special mixtures for different soils, and the results to our customers have been exceedingly satisfactory, resulting in largely increased crops both of hay and pasturage. We will take pleasure in advising our customers as to suitable grasses for their soils and purposes.

We have the following mixtures combined grasses suitable for the various soils and uses for which they are recommended. Those for permanent pastures are composed Prices fluctuate. We will quote special prices at anytime upon request.

### Mixtures for Permanent Pastures---But Can Be Mown 25 Lbs. or over at 100 Lb. Rate

Mixture No. 1. For Light, Dry, Gravelly or Sandy Soils. Sow 30 to 35 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 2. For Good Loam Soil. Sow 30 to 35 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 3. For Heavy Loam or Clay Soil. Sow 30 to 35 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 4. For Moist Bottom Land. Sow 25 to 30 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 5. For Wet Bottom Land. Sow 25 to 30 lbs. per acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Lbs. at 16c per lb.

Orchard Grass. One of the best grasses for winter pastures, it makes a good growth on wet and heavy clay soils with ordinary field treatment. In the first warm days of February it commeuces a thritty growth, and if not pastured is ready to cut for hay in April. With the first Fall rains it springs into life and furnishes an abundance of excellent grazing throughout the entire winter months. The hay made from Orchard Grass is of excellent quality and should be cut when in blossom. Sown alone, use 30 to 40 pounds per acre or sow 8 to 10 pounds Red Clover, 20 to 30 pounds of Orchard Grass mixed per acre. It can also be sown with excellent results with Tall Meadow Ont Grass. Price, "Gold" Brand, Lb. 30c (Postpaid 35c.). Pk. \$1.15. Bu. \$4.00. Prices, fluctuate. We will quote special prices at any time upon request.

# Timothy and Alsike Clover Mixed

Where Alsike Clover and Timothy are grown together, and the seed is saved therefrom, it is impossible, iu cleaning, to make a complete separation of the two.

For bay, the Alsike and Timothy Mixture is very valuable on soils too moist for Red Clover. Alsike is suitable

1121. English or Perennial Rye Grass. A valuable pasture grass which will bear frequent close cropping. Produces an abundance of foliage. The hay is relisbed by all kinds of stock. It will grow well on almost any land. When sown by itself sow 30 lhs. per acre either in the Spring or Fall. Price: Lb. 20c. (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c lb. Prices fluctuate. We will quote special prices at any time upon request.

1249. Pacey's Short Seeded Perennial Rye. Specially suited for fine lawn mixture, extensively used on the beautiful lawns in England. It makes a quick, leafy growth

of grasses which succeed each other in growth, and give a succession from the first of Spring until late in Winter, while for those desired more for cutting for hay bave combined grasses which ripen together. In all our mixtures we are introducing small quantities of Alfalfa Clover with the idea of inoculating the land with Alfalfa bacillus. Alfalfa revolutionizes farming, but the bacillus must be established before the revolution can occur. The different mixtures are prepared both as to quantity and varie ies as best dapted to the soils and situations for which they are recommended. In all of our grass mixtures we use the very best seeds, the quality and purity of our seeds being our first consideration. The quantity bandled enables us to give our customers the benefit of a very low price, even lower than if they purebased the seed separately.

## Mixtures for Mowing for Hay---But Can Be Grazed 25 Lbs. or over at 100 Lb, Rate

25 Lbs. or over at 100 Lb, Rate

Mixture No. 6. For Light, Pry, Gravelly or Sandy Soils.
Sow 30 to 35 lbs. to the acre. Lh. 20c (Postpaid 25c.). 10
Lbs. at 17c lb. 100 Lbs. at 16c per lh.

Mixture No. 7. For Good Loam Soil. Sow 30 to 35 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 8. For Heavy Loam or Clay Soil. Sow 30 lbs. to the acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lh.

Mixture No. 9. For Moist Bottom Lands. Sow 20 to 25 lbs. per acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Mixture No. 9. For Moist Bottom Lands. Sow 20 to 25 lbs. per acre. Lb. 20c (Postpaid 25c.). 10 Lbs. at 17c. lb. 100 Lbs. at 16c per lb.

Mixture No. 10. Shady Nook Meadow Mixture. Like our Shady Nook Lawn Mixture, this mixture is specially prepared for good loamy soil in partially shady situations. A fine permanent pasture mixture, yields large crops of hay. Sow 30 to 35 lbs. to the acre. Lb. 20 (Postpaid 25c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c per lb.

Tall Meadow Oat Grass. Also called Evergreen Grass. It is not strauge that this grass is becoming so popular; the drought of mid-summer or the cold of winter does not uijure it. It starts growing very early in the spring; can be cut twice for bay; will yield good grazing until late in the Fall. For hay it should he cut in bloom. Tall Meadow Oat Grass is best adapted for rather light and dry loamy uplands, but gives excellent results on nearly all soil. Sown alone, use 1 to 3 bushels to the acre either Fall or Spring; sown in mixture, use 1 husbel Tall Meadow Oat Grass and 6 pounds Red Clover. Write for prices. for prices.

for either hay or pasture. It is finer aud more leafy than Medium Red Clover and cattle prefer it. "Gold" Brand, Lb. 25c (Postpaid 30c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c lb. \$9.60 60-lb bw. Prices fluctuate. We will quote special prices at any time upon request.

# Bolgiano's Rye Grasses for Spring Planting

of fine texture. Please write us for lowest prices.

1172. Italian Rye Grass. Like Perennial Rye Grass, valuable for pasture and also for hay. Thrives on rich, moist laud, where from 3 to 4 cuttings may be made in a season. Will stand more overflow than other Grass. It is less wiry than Perennial Rye Grass and is particularly well adapted to the soils and climate of Florida. About 24 lbs. of seed to the acre. Price: "Gold" Brand, Lb. 22c (Postpaid 27c.). 10 Lbs. at 19c lb. 100 Lbs. at 18c lb. Prices fluctuate. We will quote special prices at any time upon request. to all kinds of stock. to all kinds of stock

Burt. or 90-Day Oats

#### COW PEAS

The Great Soil Improvers, make poor land rich, and make good lands more productive, a splendid and nutritious green forage or hay crop, enriching the soil even when the crop is cut off.

Prices fluctuate. We will quote special prices at any time upon request.

Mixed Cow Peas. We strongly recommend sowing the Mixed Cow Peas as a soil-improving crop. The upright growing varieties holding up the vining varieties, they will make much better crop and give more satisfactory results, yielding better crops of vines and more forage

Whip-Poor-Will. Vines erect, seed large mottled Red and white and matures early. Good to grow between corn.

Brabbam Cow Peas

Soja Beans. The great drought-resisting forage crop; unsurpassed in nutritive value for feeding; also makes a splendid soil improver.

Mammoth Yellow Soja Beans.

Wi'son Soja Beans.

#### CANADA FIELD PEAS

Canada Field Peas sown in November or December, and covered deeply, come up early in the Spring and grow off rapidly as soon the the weather opens up. Fancy Stock. Pk. \$1.00. Bu. \$3.60.

Prices fluctuate. We will quote special prices at any time upon request.

# SUDAN GRASS

It is a tall, annual grass, reaching a height of 7 to 9 feet when planted in rows and allowed to mature for seed crop; broadcasted and cut in the bloom for hay about 4 feet. It is easily cured and handled as a hay crop. Stock of all kinds eat it readily and will leave any other hay for The food value is second only to Alfalfa. Three tons of cured hay per cutting per acre has been seenred, and three cuttings made. It is a great drought resister and is particularly adapted to semi-arid regions. It is an canual and must be seeded each spring. When seeded in rows 18 to 20 inches apart, drill 4 to 6 pounds. When sown broadcast, 16 to 24 pounds per acre. Bolgiano's "Gold Brand' Seed. 1 Lb. 30c (Postpaid 35c.). 10 Lbs. at 17c lb. 100 Lbs. at 16c lb. Prices finetuate. We will. quote special prices at any time upon request.

# 1161. VIRGINIA GRAY WINTER OR TURF OATS

When sown early, before the Middle of March, these Oats will far outyield the ordinary Spring Oats, making a larger crop and heavier grain. For seed purposes, too, it is most desirable to sow Winter Oats in the Spring, as they make a better and cleaner seed Oats for sowing in the Fall than if continual seedings are made from the Fall-grown Oats. Further North than Virginia remarkable results have been obtained from these Oats, when sown even as late as the first of May, and from the reports of our customers, we strongly recommend these Oats to our Northern and Western farmers, as we believe that they will give much larger and better yielding crops than the Spring Oats usnally sown in the Northern and Western States. Sow at the rate of 1½ to 2 bushels per acre. Please write us for lowest prices.

1272. Appler Oats. The Appler Oat is equally adapted for sowing both in the Spring and in the Fall, but when sown in the Spring should be sown before the middle of March. It is a strong, quick growing Oat, bunchy head and heavy grain. One of the best and most reliable Rust-proof Oats for the South. I'lease write for lowest prices.

### BURT, OR 90-DAY OATS

Wherever this Oat is grown it speedily comes into favor. It is free from rust, healthy, clean and vigorous growth of straw, and makes a remarkable good yield of clean, bright, heavy grain. One of the surest cropping varieties of the South. Write for lowest prices.

SPELTZ, OR EMMER

1210. Culture. Prepare your ground as you would for wheat or oats, sow at the rate of two bushels per acre. It is extremely hardy and can be sown earlier than Spring wheat or oats, as light frost does not affect it; it can be sown later, but early sowing is better. Pk. 50c. Bn. of 40 lbs. \$1.75.

#### BUCKWHEAT

Buckwheat. For a late Summer crop Buckwheat is very desirable and profitable, especially in mountainous sections. It is easily grown, makes splendid flower food for bees and of a large yield of grain, which can usually be sold for remnnerative prices. As a smothering crop, where the land contains objectionable weeds, it is very desirable, and it puts the soil in admirable condition for crops to follow.

1160. Japanese Buckwheat. It has the advantage of remaining for some time in bloom and produces seed earlier. It resists drought and blight very well. As much as 40 bushels to the acre have been harvested, making it very profitable to raise. Sow 1 bushel per acre. Pk. 65c. Bu. \$2.10.

1178. Silver Hull Buckwheat. A prolific and favorite sort, making a fine quality flour. A superior variety in every way to the ordinary Buckwheat, which it has almost entirely superseded. Please write us for latest prices.

# **MILLETS**

# A Splendid Quick-Growing Summer Hay Crop

TRUE TENNESSEE-GROWN CULTIVATED GOLDEN MILLET

Anyone desiring to use it for hay would be greatly benefited by using our True Tennessee Cultivated Golden Millet in preference to other varieties, as it is fine stock and produces more abundantly nutritious hay than other varieties. Those people who know the difference or care always prefer the True Tennessee Golden Millet rather than the commoner sorts, as they know that the returns from a crop of this kind would he fourfold more than from the commoner variety. It is sown at the same time as the other varieties and at the same rate per acre, Onr crop has been carefully recleaned, and put into the very best possible condition, and is ready to be sown. Sow one to one and one-fourth bushels per acre, broadcast. True Tennessee-Grown Golden Millet. Per pk. \$1.10. Bu. \$3.85. 5 Bus. \$3.75 per bu.

#### GOLDEN MILLET

Choice Southern-Grown. True Southern Golden Millet

produces a fine crop of the best hay in six to eight weeks' time and on good land yields two to two and a half tons per acre. It is of special importance, however, to secure the hest Southern-Grown Trne Golden Millet. If common seed is used, or if Golden Millet is mixed with common Millet, the yield is greatly lessened and renders the hay of less value, because common Millet grows very much smaller, has very little leaf growth, goes to seed quicker, thus interspersing with the hay woody fibre and more or less seed, both of which are extremely objectionable, besides gratly curtailing the crop. Trne Golden Millet produces a large and luxuriant growth of foliage, has very large heads which ripen evenly, and if cut when in bloom is extremely palatable. Sow broadcast one hushel per acre. Two crops can be seeded and grown during the Summer on the same land. Price Southern-Grown Golden Millet. Pk. 95c. Bu. \$3.50. 5 Bu. lots \$3.40.

# Inoculate Your Alfalfa, Clovers, Cow Peas, Soy Beans, Vetches and All Other Legume Crops with

Small Cost

Easy to Use

No Labor Expense

Mulford Cultures contain pure, tested strains of active, vigorous nitrogen-fixing hacteria, for inoculating seeds of legumes or soil. Enormous numbers of these very valuable and desirable bacteria are thus available to you in every package of Mulford Culture and may readily be applied to your seed. The sealed bottle in-

Increase Your Crops Improve Your Soil

Legumes offer the best-known means of maintaining soil fertility and rejuvenating over-cropped and wornout fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton. corn and other non-legume crops.

The U. S. Department of Agriculture and many State Agricultural Experiment Stations recommend inoculation of legumes with nitrogen-fixing bacteria to induce a prompt "catch" and increase your yield.

Mulford Cultures are scientifically prepared and tested by experts in the biological laboratories of H. K. Mulford Co., Philadelphia, U. S. A., with the same degree of care as Mulford Antitoxins, Serums, Vaccines, etc., which are standard all over the world.

Always specify on your order what crop you want to inoculate, as there is a different strain of bacteria for each legume.

Fertilizers for the Farm, Garden and Lawn

We present a list of our brands of Fertilizers. You cannot judge the merits of a Fertilizer only by the analysis, but you must have a knowledge of the basis from which it has been made.

It is a well-known fact that the animal waste produced in the abattoirs give the purest and most available hasis for Ammonia and Phosphoric Acid. This is the basis of our goods. The company that manufactures our Fertilizers own and control a sufficient number of abattoirs, independent of the meat trust, to secure for our goods this unexcelled source for our plant food. The expense is almost as much working and reaping one-half a crop as it would be harvesting a full crop, which a good fertilizer would help to produce.

The four columns in the Analysis represent the following ingredients respectively: Ammonia, Phosphoric Acid, Pot-

# Bolgiano's Druid Hill Park Velvet Green Lawn Grass Seed

Used by the Leading Landscape Gardeners of The United States

TESTED AS TO GERMINATION

ANALYSIS AS TO PURITY

ANALYSIS AS TO PURITY
If sown this Fall will quickly produce a most heautiful vervet green lawn. It is perfectly hardy and war stand the severest winter.
Our Druid Hill Park Velvet Green Lawn Grass is very quick in growth, and is ready for mowing in from four to six weeks from time the seed is sown.

four to six weeks from time the seed is sown.

Lawns sown with our Druid Hill Park Velvet Green Lawn Grass remain green and fresh, for the reason that this mixture includes quick-growing varieties which are at their best soon after the frost is out of the ground, others that mature and flourish in Midsummer, and still others that are greenest and sturdiest in Autumn. For each of these seasons there are several different varieties living on different elements in the soil, so that one is certain in the soil, so that one is certain always to have a satisfactory carpet of green wherever our Druid Hill Park Velvet Green Lawn Grass is sown.

Not only is our Druid Hill Park Velvet Green Lawn Grass suitable for making of new lawns, but it will be found equally valuable for quickly renewing imperfect, old and worn-out areas. Always see that the soil is thoroughly prepared, carefully pulverized and enriched with Sheep Manure, Bone Fertilizer or Evr-Green Lawn Lime before sowing the seed. One, pound will sow 20x20 feet, 10 pounds will sow 50x 100 feet. 60 pounds will sow an acre. 30 pounds measures one bushel. ½ Lb. 10c. ½ Lb. 18c. Lb. 30c. 5 Lbs. \$1.25. Bu. of 30 lbs. \$7.25.

A Beautiful, Smooth, Deep Velvety Green Lawn is Certain Only Through Sowing Druid Hill Park Velvet Green Lawn Grass Seed. There is No Seed Like It

Shady Nook Lawn Grass Mixture

It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in the shade, and as it blends well with our Druid Hill Park Velvet Green Lawn Grass Seed, it may he used on those portions of the lawn which are shaded hy trees, buildings, etc., thus covering the whole area with a rich green sward. ½ Lb. 10c. ½ Lb. 18c. Lh. 30c. 5 Lbs. \$1.25. Bu, of 30 lbs. \$7.25.

Cloverless Lawn Grass Seed

This excellent mixture contains all the valuable grasses composing our Druid Hill Park Velvet Green Lawn Grass Seed. ½ Lb. 10c. ½ Lb. 18c. Lb. 30c. 5 Lbs. \$1.25.

White Dutch Clover

This is the best clover for lawns, as it forms a close herbage and remains green throughout the season. Sown in the Spring at the rate of 6 pounds per acre when sown alone; one-half the quantity when sown with other grass. ¼ Lb. 20c. ½ Lb. 30c. Lb. 50c. SPECIAL GOLF MIXTURES

Over the course, where a very close-growing sod is not necessary, but where a beautiful, velvety, green grass is wanted, we especially recommend our special mixture for Fair Grounds. By using this mixture in connection with special mixture for putting greens you are assured an even, velvety, green golf course equal to the best of lawns. Lb. 30c, 10 Lbs. at 28c, 1b, 100 Lbs. or over at 25c lb

For Putting Greens

What is needed here is a close, low-growing grass that will stand a lot of trampling and will make a springy, tough turf. After thoroughly experimenting and scientifically testing, we have formulated a mixture that will give the desired results of an ideal putting green. Lb. 45c. Lbs. 42c lb. 100 Lbs. or over at 40c lb.

# Best Fertilizers for Lawns, House Plants, Etc.

Flowers, Vegetables,

BEAUTIFUL FLOWERS, DELICIOUS VEGETABLES, LUXURIANT HOUSE PLANTS

EVR GREEN to a hundred square feet of sod to get the
hest results.

hest results. Price: 75c per 50 lb. bag.

Bolgiano's Re-Selected and Improved Stock

366 Livingston's Globe Tomato

Thousands of dollars are made annually by the Southern shippers on Livingston's Globe Tomato.

The size and shape of Livingston's Globe Tomato makes it a wonderful seller. It is among the earliest and on account of the toughness of its skin, it stands long shipments to Northern markets.

Realizing the adaptability of Livingston's Globe Tomato to our Southern soils and its wonderful shipping qualities, we have spent years in reselecting and improving our stock of this wonderful tomato, until we believe we have the purest and truest type of Livingston's Globe Tomato ever produced.

In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen. Fruit of large size, and

among the first to ripen. Fruit of large size, and Livingston's Glove Tomato good marketable size is maintained throughout the season; always smooth, firm-fleshed and has very few seeds. Ripens evenly through and through; a fine, glossy rose in color, tinged with purple. The plant is always loaded with fruit, as it has joints at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adapted for slicing or eating from the hand, as the flavor is very delicate and agreeable.

# The Marvel of the Seed World "Victory" Tomato

Developed
During
War
Times

407. "Victory" Tomato

This wonderful Tomato has been created by the World-Renowned Hybridizer and Tomato Seed Specialist, Mr. John Baer. With his only son a soldier in France and with his own heart heavy and sad, this great friend of the trucker and market gardener not only did "his bit." "but "his all," by laboring incessantly during the four long years of the great world war. Meeting failures and successes, he finally created the marvelous "Victory" Tomato.

Carefully considering all the grand, victorious points of the "John Baer" Tomato and all the splendid, strong, profitable points of the "Greater Baltimore" Tomato, Mr. Baer set for himself the great task of merging the "John Baer" Tomato and the "Greater Baltimore" Tomato together and creating the most wonderful Tomato the world has ever known.

Mr. Baer has been crowned with success, as will be borne out by the remarkable photograph of the "Victory" Tomato ahove. Mr. Baer has created the most beautiful, the most prolific, the most profitable, the most successful Tomato the world has ever known.

The vines are full of vim, new life and healthentirely free from wilt, blight and disease.

"Victory" Tomato is the product of two wonderful, full-blooded, healthy parent stocks. The new creation has been selected and developed to reproduce the best qualities of both parents.

It would take many pages to tell about this marvelous new Tomato, for it has never been equaled, but we give below a few of its wonderfully strong points and outstanding good qualities. When you grow it you will say even more good things ahout it than we have.

1st. "Victory" Tomato is the most beautifully shaped Tomato the world has ever seen.

2nd. "Victory" Tomato is free from core. It produces all perfect high crown fruit.

3rd. The color is a startling, beautiful, brilliant red.

4th. The fruit is firm, solid and beavy. Crowded full of delicious meat.

5th. "Victory" Tomato ripens perfectly right up to the stem.

6th. The development is perfect, smooth and even at both stem and blossom end.

ر السيادة ( السيادة في الشيادة ( السيادة السيادة السيادة ( السيادة السيادة السيادة ( السيادة السيادة السيادة ا

7th. Absolutely no waste.

8th. Entirely free from wilt and blight.

9th. "Victory" Tomato ripens a little later than "John Baer" Tomato, but earlier than "Greater Baltimore" Tomato.

10th. It is a marvelous yielder. The abundance of its crops will amaze you.

11th. The flavor is distinct, mild, refreshing and delicious, entirely free from any stinging or biting acidity.

12tb. Produces heavy crops of fine fruit when other varieties are complete failures.

Every ounce of our very limited supply of seed has been personally grown by Mr. John Baer, and each Tomato has been selected by bim and the seed saved with his own hands. Our supply of seed is necessarily a very limited one this season, and in order to secure some of this wonderful Tomato, we urge you to mail us your order immediately. You will be delighted with your crops and receive big profits.

# 378 Bolgiano's "Glory" Tomato Lives and Bears Abundantly When Other Varieties Die

a Blemish

Without

"Glory" Tomato is now being grown by Tomato growers in every State of the Union and in many for-eign countries. The reports we have received have been, without a single exception, full of praise and appreciation of the wonderful good qualities of this marvelous Tomato.

Bolgiano's New Glory Tomato.

Prices: Pkts. 25c and 50c. 1/4 Oz. 75c. Oz. \$2.00.

"Glory" Tomato produces hut very few seeds; the seeds are, therefore, well matured, full of life and vigor and will germinate quickly and produce strong, vigorous, thrifty plants.

"Glory" Tomato ripens earlier than many other varieties that are usally planted for early use and is an abundant and continuous bearer.

"Glory" Tomato produces vines that are well set with fruit, bearing from the ground to the top of the vine. At times the vines are so full that they can hardly hold all the fruit that they produce. The vines are short-jointed, vigorous and healthy. So pure in type they are almost identical in all respects. They keep vigorous and green until frost and then are full of fruit.

"Glory" Tomato produces at every joint large clusters of good size, smooth, firm, beautifully shaped fruits, uniform in shape, color and size. They ripen evenly and color up well.

"Glory" Tomato yield is marvelous. The vines are fairly loaded with beautiful fruit. Many growers say "Glory" Tomato yields more per acre than any other Tomato; it has produced over 1,000 crates per acre; many single plants produce over 35 pounds of fruit aplece. Side by side with other Tomatoes, "Glory" has outyielded them two to one. Many Tomato growers claim it produced the largest crops they have ever grown.

"Glory" Tomato is decidedly disease resistant. It

grown.

"Glory" Tomato is decidedly disease resistant. It has proven absolutely blight-proof when other crops side by side were rwined by blight.

"Glory" Tomato is one of the handsomest Tomatoes grown. It has an exceptionally fine Red Color. Mild, Delicious Flavor. The fine breeding and careful selection of this strain shows up in the fruit. It is entirely free from gracks. free from cracks. "Glory" Toma

"Glory" Tomato being an extremely shy seeder, we suggest sending in your order as early as possible before our limited supply is exhausted.

311 Florida Special Tomato

The Greatest Blight-Resisting To-

The Greatest Blight-Resisting Tomato on Earth.

Not a single grower of Tomatoes in Florida or in any locality where bliight has injured the Tomato crops should go through this season without trying this most excellent Tomato. We call it "Florida Special," for it has been most carefully bred up to resist the ravages of blight, which has been so discouraging to our Florida customers. It is red in color, large in size, fine flavored, firm and meaty, very prolific, and about as early as Earliana. It is a most excellent shipper; in fact, during our entire time of selecting and breeding up the Florida Special we took the utmost pains in selecting such tomatoes as would stand the long shipment to Northern markets from Florida. Pkt. 10c. Oz. 30c. ¼ Lb. 85c. Lb. \$3.00. Postpaid.

297. "DUKE OF YORK" TOMATO

#### 279. BOLGIANO'S "GREATER BALTIMORE" TOMATO

After eight seasons have passed and the "Greater Baltimore" Tomato has been grown in every Tomato State in the Union and in many foreign countries, it is almost impossible to give a description of its merits without seeming to claim for it supernatural powers, so in describing it we will, as far as practical, confine ourselves to extracts from the experience of those who have grown the "Greater Baltimore" during the past seven years.

A Florida man writes: "It is the finest Shipping Tomato ever sold—tested side by side, and shipped side by side with five leading varieties, it beat them all." Another writes: "Out of 15 Red Varieties it was the best of all." Very prolific—it yielded from 300 to more than 650 bushels of 60 pounds per acre." One man raised 17,000 plants from quarter pound of "Greater Baltimore" Tomato Seed. Vigorous grower, strong, healthy plants. Fruit uniform in shape and size, large, very regular, smooth, shapely, fleshy, very meaty, ripens

## 77. "MY MARYLAND"-BOLGIANO'S WONDERFUL NEW TOMATO

King of Them All. Has Surpassed the Best Yielding Tomato in the World More Than 1000 Per Cent -Marvelous Double Yielder.

The vast possibilities of this New Tomato are as-We believed in Greater Baltimore Tomato the limit of productiveness had been reached, but "My Maryland" so far outylelds any other Tomato aver the limit of productiveness had been reached, but "My Maryland" so far outylelds any other Tomato ever grown that its remarkable productiveness is amazing. People have driven miles to see a field of "My Maryland" Tomatoes, and they all marveled at the prodigious abundance of the croos it had produced. The fields were literally covered with the finest well-shaped, perfectly formed, solid, smooth, bright red, uniform fruit, all free from roughness and cracks, much larger than they had ever seen before. It was called then and there "A Winner," and it well deserved the title. The Tomatoes are much larger and far heavier than either the Greater Baltimore or the New Century. By most careful reselections for five years we have thoroughly established the purity and trueness of "My Maryland" established the purity and trueness of "My Maryland" Tomato, and arc delighted to be the introducer of a Tomato which from start to finish is "King of Them All." A real "Double Yielder" that is known as the best second early and main crop Tomato the world over. Pkt. 10c. ½ Oz. 20c. Oz. 40c. 2 Ozs. 70c. ¼ Lb. \$1.35. ½ Lb. \$2.40. Lb. \$4.50. Postpaid.

well and evenly. Beautiful bright red color, fruit very handsome, dozens weighing 30 ownces, and several exceeding 32 ounces. Seed planted a month later than "Duke of York" produced shipping fruit two weeks before that variety was ready. "Fine crop in bad season." Excellent keeper—has kept until New Year's Day. Rust and blight-proof. Recommended unreservedly by a grower for "the section around Lakeland, Fla." Had proved better than any variety tried at Picton, Canada. "Stands the heat and drought of Mississippi." "Very valuable for South Carolina climate." In the canning districts of Delaware and Maryland "yielded a fine crop in bad season." Texas says there is no better tomato in size and taste on the market; not an acid tomatovery fine flavored. As a bome garden Tomato the results have been far beyond expectation. On our own table we sliced the "Greater Baltimore" Tomato like we would slice a fine, tender roast beef. Pkt. 10c. ½ Oz. 20c. Oz. 35c. 2 Ozs. 65c. ¼ Lb. \$1.15. ½ Lb. \$2.15. Lb. \$4.00. Postpaid.

#### 310. BOLGIANO'S PROSPERITY TOMATO

We didn't want to name this wonderful New Early Red Tomato "PROSPERITY," but we couldnt help it: no other name could tell so quickly and so thoroughly

no other name could tell so quickly and so thoroughly how good it was.

"PROSPERITY" means Success, Good Fortune, Entire and complete Satisfaction; finding a tomato possessing all these qualifications and advantages, we instinctively thought of "PROSPERITY."

Description—One of the earliest of all Tomatoes, a brilliant red, and enormous yielder, grown and developed from single plant selections covering a period of five years filled full of strong, sturdy, healthy, new blood. After having been tried by the leading market gardeners and largest shippers all over the United States and Canada for the last six years, it is today thought more of than ever before. Stock this year is limited, so ask that you send us your order at once. Price: Pkt. 10c and 15c. ½ Oz. 25c. Oz. 50c. ¼ Lb. \$1.40. Lb. \$5.00. Postpaid.

32. BOLGIANO'S CHARLESTON OR LARGE WAKEFIELD CABBAGE

The Best Large Early Cabbage.

Bolgiano's stock of this most wonderful cabbage has created a sensation with the cabbage growers all over the country, on account of the decided advantage it has over all other sorts. It can be the first variety sent to market, and on account of its handsome appearance will invariably bring the tiptop prices. If, however, the early market prices

are low, it can be safely left standing in the field to mature to an extra large, compact, solid, magnificent cabbage, which has never failed to attract the admiration of the most skilled gardeners, and always brings better prices than any other harvested at the same time. For sureness in heading and regularity in growth Bolgiano's Charleston or Large Wakefield Cabbage is the acme of perfection.

# Bolgiano's Selected "Ruby King" Pepper

The Finest Selected and Improved Stock

227 BOLGIANO'S SELECTED "RUBY KING" PEPPER

This is the finest selected and improved stock of the well-known Ruby King Pepper. Most carefully selected for size and yielding qualities, and remarkable trueness to type and uniformity. We supply the Southern planters with thousands of pounds of our stock of Ruby King Pepper each year and it has become widely known for perfection of form, large size, brilliance of color, sweet and mild flavor. Plants grow two feet high and bear a fine crop of handsome, extra large, scarlet fruit. Our stock is exceptionally thick meated, it is a heavy bearer and splendid shipper. The Peppers grow about 5 to 6 inches long and about 3 to 4 inches in diameter. The flesh is very thick, sweet and so mild it is often sliced for a salad, it is also fine for stuffing. If you want some of the finest stock of Ruby King Pepper in the world place your order with us at once.

Pkg. 5c and 10c. Oz. 35c. ¼ Lb. \$1.15. Lb. \$4.00. Postpaid.

# Bolgiano's "Big Boston" Lettuce

Finest Stock in the World

Bolgiano's "Big Boston" Lettuce-Stands Shipment Better Than Any Other

Thousands of the most discriminating gardeners located all over the United States have planted Bolgiano's "Big Boston" Lettuce year after year, and would plant no other because Bolgiano's "BIG BOSTON" pays them handsomely. It is the best heading variety in cultivation; it is a splendid shipper, hardy and thoroughly reliable. Its excellent qualities have made it the most popular and most extensively used lettuce in cultivation. It can be grown in the open ground for Summer or Fall, in frame for Spring or forced cool in Greenhouses for Winter use, producing under such conditions grand, large, buttery yellow heads filled with sweet, crisp, tender, beautifully blanched leaves. Stands long without going to seed, has few outer leaves and makes an attractive plant. "Big Boston" is especially adapted to cool open ground culture. Prices: Pkts. 5c. Oz. 10c. 14 Lb. 25c. 1/2 Lb. 40c. Lb. 75c. 5 Lbs. \$3.50. 10 Lbs. \$6.50. Postpaid.

# Bolgiano's Early Fortune White Spine Cucumber

The Great Money-Making Cucumber. The Ideal Cucumber for Home or Market.

The Earliest, Best, Rich Dark Green White Spine Cucumber on Earth

Bolgiano's Early Fortune White Spine Cucumbers All Pack Fancy and are Far Superior to other Sorts

Early Fortune Always Brings the Highest Prices You Can Always Depend on Early Fortune

84. Thousands of expert growers everywhere have proven by actual test that Bolgiano's Early Fortune Cucumber is the earliest and by far the best, rich dark green White Spine Cucumber on Earth. Early Fortune is the Best Cucumber for table, Market or Shipping purposes. It is the greatest producer of all varieties, and at all stages of its growth it is a model in shape, being the handsomest and most attractive Cucumber ever grown.

In color Early Fortune is a rich, attractive deep green. This inviting color it retains during a much longer period of growth than any other variety; it is so regular in form, one so much like the other, growers marvel at the purity and trueness of our stock—in fact, in selecting our Stock Seed these Cucumbers are so perfect it is almost impossible to say which is best.

The quality is superb, flavor delicate, refreshing and delightful, entirely free from any bitterness; being fine-grained, the flesh compact, it is exceedingly crisp and brittle, making it an ideal slicing Cucumber.

As a shipping Cucumber "Early Fortune" cannot be surpassed, as it holds up in color and quality longer and better than any other variety. Pkt. 5c. Oz. 10c, 1/4 Lb. 25c. Lb. 75c. Postpaid.

Culture. Beans are somewhat tender, but it often pays to take some risk. Plant in warm, loamy soil at the beginning of settled, warm weather in Spring, and at intervals for succession until August. Rows may be made 2 feet apart, and the Beans planted not more than 2 incbes deep and several incbes apart in the drills, or 3 or 4 Beans in bills 6 to 8 incbes apart. Cultivate and boe frequently, always, however, when the vines are perfectly dry. In boeing draw the soil up towards the rows of plants. For String Beans gather the pods clean as fit for use. The plants will remain all the longer in bearing.

1013. Black Valentine Beans. Matures early, producing long, round, straight, tender pods of bligbt-resisting qualities. Pkt. 10c. Pt. 25c. Qt. 40c. 2 Qts. 75c. 4 Qts. \$1.40. Pk. \$2.50. Bu. \$9.50.

1002. New Emerald Beauty Bean. The Emerald Beauty is a flat, green podded. Busb Bean, a prolific and continuous bearer, the first in Spring and the last in Fall. It is absolutely stringless, very tender and delicious flavor. The plant is of remarkably bandsome and thrifty growth. The rich, green pods are of immense size, thick, broad, extra long; uniform shape, solid, meaty and of bigh quality. Market that will accept a flat podded bean will soon appreciate the surpassing qualities of the Emerald Beauty. Pkt. 10c. ½ Pt. 15c. Pt. 25c. Qt. 40c. 2 Qts. 75c. 4 Qts. \$1.40. Pk. \$2.50. Culture. Fibrous loam, well drained and well enriched, will raise good Beet Crop. For early table Beets have drills 16 to 20 inches apart, and sow the seed about 1 inch deep, as early as the ground can be put in good shape, or seed may be sown under glass four weeks sooner, and the young seedlings transplanted to open ground, to give an extra early crop. Give thorough and clean cultivation, and thin the plants to stand 3 to 4 inches apart in the row. For succession sow at intervals to middle of July. For earliest sowings a light dressing of nitrate of soda, say 100 pounds per acre, will sometimes work wonders.

377. Bolgiano's New Early Spring Beet. First Beet in market. Most perfect shape and color. Earlier maturing than Crosby's Egyptian and of a much finer grain. Has very small tap root and small top. All coming into maturity at same time. Well adapted for forcing. Pkt. 10c. Oz. 15c. 2 Ozs. 25c. 14 Lb. 45c. 1/2 Lb. 80c. Lb. \$1.50. Postpaid.

295. "Bonfire," Bolgiano's New Early Beet,
especially adapted for market gardeners, being
glass and for open ground culture. For home
found desirable, as it retains its freshness and
high quality without becoming tough. Pkt. 10c. Oz. 15c. 2 Ozs. 25c.
14 Lb. 30c. 1/2 Lb. 55c.

found desirable, as it retains its freshness and high quality without becoming tough. Pkt. 10c. Oz. 15c. 2 Ozs. 25c. ½ Lb. 30c. ½ Lb. 55c. Lb. \$1.00. Postpaid.

18. Bolgiano's Deep Blood Beauty Beet. The most popular market gardeners' Beet ever introduced. Pkts. 5c and 10c. Oz. 15c. ½ Lb. 30c. ½ Lb. 55c. Lb. \$1.00. Postpaid.

12. American Beauty Beet. The skin and flesh of "American Beauty" Beet are both a deep rich blood crimson color. It matures just after the Eclipse, has a most beautiful form, being a little deeper than round, medium in size, generally about three inches in diameter, has a remarkable surface and a small tap root. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 25c. Lb. 85c. 115. Early Model Beet. This is a fine selection of blood red Beet, extemely smooth and of symmetrical growth, rich color and desirable shape. It makes a rapid growth and matures very early. The shape is nearly rund, and color of flesh blood red. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 25c. Lb. 75c.

Beets, continued

Beets, continued

In Lots of 5 Lbs. or More at 5c Per Lb. Less.

3. Early Ox-Blood. 6 Reasons Why We Introduce This New Beet. 1. It is extra dark blood color from end of its tap root to top of its short, graceful leaves. 2. Early as the Crosby Egyptian. 3. Almost globe shape. 4. Small amount of even foliage of deep ox-blood color. 5. Beets are very smooth and free from side rootlets. 6. Flesh fine grained, sweet and of ox-blood color. Pts. 5c and 10c. Oz. 10c. ¼ Lb. 25c. Lb. 75c.

4. Extra Early Eclipse. Remarkable for its very rapid growth, the perfection of its form—which is globular—of its beautiful crimson flesh, and for its dwarf foliage. Roots are bright glossy red. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ½ Lb. 20c. Lb. 60c.

5. Crosby's Improved Extra Early Egyptian Beet. An improvement on Extra Early Egyptian, being as early, but of more desirable shape, color and quality. It is very sweet and tender; a most valuable sort for early market, as it is ready before any other Bect of equal quality. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 60c.

6. "New Crimson Globe Beet. This is one of the best Bunching Beets yet introduced. A handsome variety of medium size, almost globe shape, and entirely free from rootlets; a grand second early or main crop sort. The roots are of medium size. Beets average 10 inches in circumference. Very handsome in shape, being a little deeper than round, with a remarkably smooth surface. The foliage is small and of a rich bronze purple, borne on slender stems which occupy but a small portion of the root. Flesh is a rich blood red, slightly zoned or ringed in a most beautiful manner, making it very attractive in appearance; never stringy. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 65c.

7. Detroit Dark Red Beet. A splendid Beet of a dark red color, for home or market. By far the best for canning, on account of its beauty. Small, upright tops and perfectly small roots. Flesh zoned with lighter and darker bands; tender and sweet. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. ½ Lb. 65c.

11. Extr

½ Lb. 35c. Lb. 65c.

small, dipright tops and perfectly small constant and darker bands; tender and sweet. Pkts. 5c and 10c. Oz. 1½ Lb. 35c. Lb. 65c.

11. Extra Early Dark Red Flat Egyptian Beet. The Egyptian Beet is one of the most popular varieties among market gardeners for forcing purposes. Justly or unjustly it is considered to be the earliest of all. It certainly will bear close planting in the valuable space under glass or in warm garden in early Spring. It is turnip-shaped, and when young is crisp and tender. In color it is dark red. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c.

20. Early Blood Turnip Beet, New Improved. It is early, smooth, does not grow overlarge, has few roots. It does not become stringy, matures a medium size, deep crimson Beet of decided uniform type. Pkts. 5c and 10c. Oz. 10c. 2 Oz. 15c. ¼ Lb. 20c. Lb. 50c.

21. Edmand's Blood Turnip Beet. A handsome, clean, turnip-shaped blood Beet. Skin and flesh are of a deep blood red, sweet and tender in quality and unsurpassed for solidity and keeping purposes. The roots grow regular and are of right marketable size. Tops are small, allowing them to be grown close together. Pkts. 5c nd 10c. Oz. 10c. ¼ Lb. 20c. Lb. 50c.

10. Early Large Egyptian. None better for an early general crop than the early Egyptian; handsome shape and does not crack open. This crop commands a good market all the season. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. 1½ Lb. 30c. Lb. 50c.

13. Lentz Extra Early Beet. Color a deep, blood red. tender and sweet at all stages of its growth. Has small top and can be used six weeks from scwing. Very productive, a splendid keeper and shipper. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 25c. ½ Lb. 45c. Lb. 85c. and 10c. Oz. 10c. 2 Ozs. 15c. 1½ Lb. 25c. ½ Lb. 45c. 5c. and 10c. Oz. 10c. 2 Ozs. 15c. 1½ Lb. 25c. ½ Lb. 40c. Lb. 55c. and 10c. Extra Early Eclispe Beet

Write for special prices in large quantities.

Culture. Sow and cultivate same as Mangel except that they should be thinned out 6 to 8 inches in the row.

1204. Klein-Wanzle Bener Elite. This variety at the present time has probably a wider cultivation than any other Sugar Beet. It may be distinguished by its brighter color and its lighter colored leaves, which are beautifully undulating, and scalloped around the edges; while not as a rule equal to the Vilmorin in Saccharine richness, it is considerably more productive. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 60c.

360. Lane's Improved Sugar. An American variety and the best stock-feeding Beet known. It is not so sweet as the French Sugar Beets grown especially for sugar making, but the roots are longer and finer grained; very sweet. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 60c.

MANGEL WURZEL

Culture. Sow 5 pounds to the acre in April or June, in rows 3 feet apart, and thin to 9 inches in the row. Cultivate frequently with horse tools and you will have an abundant crop of roots for Winter use.

1151. New Jumbo Mangel. For milch cows and cattle generally the new Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time keeps the cattle over Winter in prime condition. It will outyield any other Mangel two to one. It is easy to grow, outyield any other Mangel two to one. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 60c.

1152. Gate Post Mangel. The name indicates the immense size of this fine flavored Mangel. Among the Yellow Mangel it stands supreme. The milk it produces when fed to cows is of the richest character. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 20c. Lb. 60c.

SUGAR BEETS For Stock Feeding

> 1153. Giant Feeding Sugar Beet or Half Sugar Mangel. This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of yield of easily grown and harvested roots as a crop of Mangels, supplies a food of very much higher nutritive value, the roots for feeding purposes being really more valuable, pound for pound, than those of the very best strains of Sugar Beet, and the yield under equally favorable conditions being more than double. The roots grow partly out of the ground, and because of this and their shape the crop can be harvested and stored at less expense than any other root crop. We are certain that every one who plants this variety and grows it with care will be much pleased with the crop. Every farmer should try it. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 60c.

Write for special prices in large quantities. 1153. Giant Mammoth Long Red Mangel. Our stock is a great improvement on the old variety. The roots are very large, uniformly straight and well formed. Color deep red, roots solid, tops small. Roots attain a large size. We received several reports last season of Mangels weighing 20 to 23 pounds each. Produces an immense bulk and tonnage. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 50c. 1154. Improved Golden Tankard Mangel. We recommend it as the best Mangel by far for dairy farmers. It combines apparently all the fine points possible to condense into a Mangel. The color is a deep, rich yellow. The flesh is firm and solid and a rich, golden yellow in color. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 50c.

359. Golden Giant Intermediate, Root intermediate between the long and the globe-shaped. Flesh white, firm and sweet, much liked by cattle. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 50c.

We Pay Postage on All Cabbage Seed--Everywhere

Cabbage One Oz. will produce about 2,500 plants. 1/4 Lb. to transplant for one acre.

# Bolgiano's High-Bred American-Grown Cabbage Seed Will Produce the Best Crop You Have Ever Grown

No vegetable is of greater importance to the market gardener than the Cabbage, and to many growers the success or failure of this crop means gain or loss for the year. Cab bage seed, therefore, is the last seed in the list to buy because it is cheap. Much of the seed sold at a low price is imported from European countries where, owing to the climate, it produces large quantities of seed; but it is practically worthless in America. We exercise exceptional care in growing and selecting our Cabbage seed. It is all high bred American-grown, except such varieties as should be grown abroad to get the best results such as the Danish Ball Head.

Culture. Soil for Cabbage should be rich and heavy loam, with good drainage. On such a soil, with an abundance of stable manure, excellent crops are sure to be grown. For early Spring sow in Fall, not too early, or the plants are liable to bolt in the Spring, instead of heading. In a month the plants will be fit to transplant to cold frames where they are wintered, taking care in planting to set the young plants down to the first leaves. Transplant in Spring as soon as the ground can be worked, setting the plants 2 feet apart one way and from 12 to 18 inches the other, according to the variety. For late or Winter crops, the seed is sown in May, and the plants set out in July. In this case they are set in rows 2 by 3 feet, so as to work them with a horse and cultivator.

Bolgiano's Selected Jersey Wakefield Cabbage

30. Early Jersey Wakefield Cabbage. Bolgiano's Selected Stock. True Type. The most popular early Cabbage with market gardeners all over the country. It is grown in vast quantities for shipment to Northern cities. Unequaled for size, solidity, earliness, uniformity and trueness, is the universal verdict of Cabbage growers. Our Stock of Wakefield is the earliest in cultivation. Every Cabbage grower should use our Wakefield, Our seed is ordered by large Cabbage growers long in advance of the time of sowing seed in order to secure our fine stock, which has never failed to produce satisfactory crops. Our seed is used in all the States where early Cabbage is grown. Pkts, 5c and 10c. ½ Oz. 20c. Oz. 30c. 2 Ozs. 55c. ½ Lb. \$3.50.

Pkts. 5c and 10c. ½ Oz. 20c. Oz. 50c. \$1.00. Lb, \$3.50. 32. The Charleston or Large Wakefield. The Best Large, Early Cabbage. This Cabbage has created a sensation with the Cabbage growers all over the country on account of the decided advantage it has over all other sorts. It can be the FIRST variety SENT TO MARKET, and on account of its handsome appearance will invariably bring the tip-top prices. If, however, the early market prices are low, it can be safely left standing in the field to mature to an extra large, compact, solid, magnificent Cabbage to attract the admiration of the are low, it can be safely left standing in the field to mature to an extra large, compact, solid, magnificent Cabbage, which has never failed to attract the admiration of the most skilled gardeners, and always brings better prices than any other sort harvested at the same time. Our stock is thoroughly reliable. Pkts. 5c and 10c. Oz. 30c. 14 Lb. \$1.00. Lb. \$3.50.

33. Early Large Vork. This is a very valuable, early variety and follows the Express and Jersey Wakefield in heading. The heads are round, heart-shaped and firm. Its dwarf growth will permit them being planted closely together. Pkts. 5c and 10c. Oz. 30c. 14 Lb. 90c. 14 Lb. \$1.75. Lb. \$3.25.

28. Extra Early Jersey Wakefield, American Grown. An excellent, early sort. Heads formed like a Wakefield, but ten days earlier; habit vigorous, short stem and most profitable to grow. Pkts. 5c and 10c. Oz. 30c. 2 Ozs. 55c. 14 Lb. \$1.00. Lb. \$3.50.

# Extra Early Cabbage

25. "Big Winner" Wakefield. We introduced this remarkable Cabbage eight years ago. It met with a hearty reception from every one who grew it. Every year we receive a great many letters of praise and congratulation regarding the Big Winner Wakefield Cabbage. No other Cabbage of which we have knowledge has aroused such enthusiasm among Cabbage growers as has our Big Winner Wakefield. It has the same general characteristics of other Wakefield Cabbages, the heads being conical with a rounded or blumt point. It is, however, far superior to other strains of Wakefield Cabbage, being nearly double the size and better quality, and at the same time is fully as early. It has few outer leaves, permitting close planting, so that more heads can be grown to the acre than with other sorts. Large Pkts. 5c and 10c. ½ Oz. 20c. Oz. 35c. 2 Ozs. 65c. ¼ Lb. \$1.15. Lb. \$4.00.

27. Extra Early Express. This, the earliest of all Cabbage, has produced marketable heads in 80 days from the sowing of the seed. It can be planted close and yields large, early paying crops. Pkt. 10c. ½ Oz. 20c. Oz. 55c. 2 Ozs. 60c. ¼ Lb. \$1.10. ½ Lb. \$2.00. Lb. \$3.75.

26. New Leader. As early as the Wakefield, yields 12.000 heads, one-third "Big Winner" Wakefield. We in-

1b. \$3.75.

26. New Leader. As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small, hard heads, or later when the Wakefield comes in, of large, thoroughly matured, solid, round, flat heads. Pkts. 5c and 10c. ½ Oz. 20c. Oz. 35c. 2 Ozs. 65c. ½ Lb. \$1.15. ½ Lb. \$2.15. Lb. \$4.00. keeps the price of the complexity.

34. Early Winnigstadt. Prize Stock. The popularity of Winnigstadt Cabbage in all sections of the world is proverbial, but there is a great difference in the quality of the stocks. Some will produce heads of twice the size of others; the finest is grown in Northern Prussia. It is from this section that our famous stock was introduced a few years ago. It has become very popular with our market gardeners. Pkts. 5c. and 10c. Oz. 30c. ¼ Lb. 90c. ½ Lb. \$3.95. gardeners. Pkts. \$1.75. Lb. \$3.25.

\$1.75. Lb, \$3.25.

266. "Copenhagen Market," New Early Danish Cabbage. As early as Charleston Wakefield. This new Cabbage is very heavy and solid, like the Danish "Ball Head" type of Cabbage; makes a fine, large, globe-shaped head with well-developed outside leaves, but is very much earlier in maturing than any of the Danish Cabbages, and makes a very fine early variety, coming in about two weeks later than the "Early Jersey Wakefield." The heads weigh 14 to 16 pounds each. The seed is very scarce this year. Pkt. 10c. ½ Oz. 30c. Oz. 50c. 2 Ozs. 95c. ½ Lb. \$1.65. Lb. \$6.00.

373. Enkhuizen Glory. Is a valuable, early variety. It produces fine, remarkable heads and is a splendid sort for the private garden and market gardener who grows for high-class trade. The heads are very solid, with but few outer leaves and of such compact growth to permit close planting. The quality is excellent. Pkts. 5c and 10c. ½ Oz. 20c. Oz. 30c. 2 Ozs. 55c. ¼ Lb. \$1.00. ½ Lb. \$1.90. Lb. \$3.50.

Oz. 20c. Lb. \$3.50.

462. Bolgiano's New "Early Spring" Cabbage. Extra Early, Enormously prolific. Heads extremely compact and solid. A fine market sort and a superior shipper. Pkt. 5c and 10c. 46 Oz. 29c. Oz. 35c. 2 Oz. 60c. 42 Lb. \$1.10. 14 Lb. \$2.00. Lb. \$3.75. Postpaid.

376. Eureka Cabbage. An extra early flat variety. Pkts. 5c and 10c. Oz. 35c. 1/4 Lb. \$1.10. Lb. \$3.75.

29. Extra Early Pilot Cabbage. American Grown. Three weeks earlier than the Jersey Wakefield. Pkts 5c and 10c. Oz. 35c. 4 Lb. \$1.10. Lb. \$3.75.

Lb. \$1.00. Lb. \$3.50.
37. All Head Early Cabbage. For uniformity, reliability of heading, size, earliness and quality it is very superior. Its beads grow compact and free from spreading leaves. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.

148. Brunswick, Fottler's Cabbage. In this vicinity the Brunswick is considered second to none by the market gardeners. Plants are very short stemmed; large leaves and very compact. Heads are large, flat, solid and of fine quality. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.
38. Henderson's Early Summer Cabbage. In size, form, solidity and earliness this is truly a model Cabbage. It heads just after our Jersey Wakefield. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.
39. Long Island, Early, Flat Dutch Cabbage. The beads are large and solid and mature very early—just after the select Jersey Wakefield, and may be marketed at the same time with the Wakefield. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.
40. Early, Short Stem, Drumhead Cabbage Seed. It is ready for marketing 2 or 3 weeks earlier than the late.

time with the Wakeneid, Pkts, of and \$1.00. Lb. \$3.50.

40. Early, Short Stem, Drumhead Cabbage Seed. It is ready for marketing 2 or 3 weeks earlier than the late Drumheads, forms large, solid, rounded beads weighing from 15 to 25 pounds. Pkts, 5c and 10c. Oz. 30c. ½ Lb. \$0c. ½ Lb. \$1.75. Lb. \$3.25.

41. Henderson's Early Succession Cabbage. A wonderful Cabbage for solidity, productiveness and fine, large heads. Matures early, hs bandsome color and fine quality. Pkts.

90c. ½ Lb. \$1.75. Lb. \$3.25.
41. Henderson's Early Succession Cabbage. A wonderful Cabbage for solidity, productiveness and fine, large heads. Matures early, his bandsome color and fine quality. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.
42. Sure Head Cabbage. Pedigree Stock.) True American grown. Produces large, round, flattened beads that are all head, with fewer outer leaves, very uniform, firm and weigbs from 10 to 15 pounds each. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$5c. Lb. \$3.00.
542. Solid South. This is one of the purest and truest Cabbages ever bred. Produces very large, sbapely, solid heads. It is crisp, fine grained and of delicious flavor. An excellent shipper. Pkts. 5c and 10c. ½ Oz. 20c. Oz. 30c. ¼ Lb. \$1.00. ½ Lb. \$1.90. Lb. \$3.50.
53. Bolgiano's Perfection Drumhead Savoy Cabbage. Surpasses all varieties of Savoy Cabbage for uniformity of heads, beauty of curl and superior keeping qualities. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$1.00. Lb. \$3.50.
49. Mammoth Red Dutch. Is the largest Red Cabbage, and heads very solid and is deep red in color to the very center. Pkts. 5c and 10c. ½ Oz. 25c. Oz. 50c. 2 Ozs. 80c. ¼ Lb. \$1.40. ½ Lb. \$2.65. Lb. \$5.00.
375. Volga. One of the earliest, main crop Cabbage of superior quality. Round bead, short stem, compact growth; exceptionally bardy and a good keeper. Pkts. 5c and 10c. Oz. 30c. ¼ Lb. \$3.50.
374. All Seasons. An "all-season" variety, equally good for Fall and Winter as for Summer use. The heads are large, solid, round, flattened on top, and of best quality. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$3.50.
96. Bolgiano's "Ringleader," Large, Late, Flat, Dutch Cabbage, Will always produce heads of enormous size and of the very finest quality. Pkt. 10c. ½ Oz. 20c. Oz. 35c. 2 Ozs. 65c. ½ Lb. \$1.15. ½ Lb. \$2.15. Lb. \$4.00.
43. Bolgiano's Extra Large, Late, Flat, Dutch Gardener's Choicest Stock. Can be planted later than the oldtime varieties and matures more quickly into a handsome. EXTRA LARGE. solid. uniform Cabbage of perfect keeping qualities. Pkts. 5c and 10c. Oz

50. Louisville Drumhead. (Best of all Drumhead Cabbage.) There is no Cahbage of the Drumhead type which can be compared with this beautiful representative in shape, color, firmness and excellent table qualities. Heat and moderate drought have little effect upon it on account of the peculiar short stem and low habit of growth. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$1.00. ½ Lb. \$1.90. Lb. \$3.50. 372. Pe-Tsai Chinese or Celery Cabbage. Improved Chinese Cabbage. Tbis vegetable is new to the public, although old to the Horticulturists. Plant in July. Sow in drills 16 to 20 inches apart and the seedlings thinned two or three times. Profitable both as a shipper and market Cabbage. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 45c. ½ Lb. \$7.5c. ½ Lb. \$1.35. Lb. \$2.50.

45. The Lupton Cabbage. Is a splendid late sort, beading after the second early sorts, and sooner than the Late Flat Dutch. It is particularly uniform in shape and size, holds its dark green color better than the late sorts. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$1.00. Lb. \$3.50.

46. Premium Flat Dutch. It has long been the favorite sort for cold slaw and sauerkraut. It matures just before severe frost and keeps perfectly over Winter. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$3.00.

47. Large, Late, Drumhead Cabbage. Tbis splendid Cabbage produces enormous beads. Its good keeping qualities makes it a first-class sort to carry over Winter for long distance shipping. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$3.00.

44. Boss Flat Dutch Cabbage. The heads are large, hard, thick and flat, the leaves lapping across the center. Pkts. 5c and 10c. Oz. 30c. ½ Lb. \$1.00. ½ Lb. \$1.90. Lb. \$3.50.

One ounce will sow 100 feet of drill, 3 or 4 pounds

In Lots of 5 Lbs. or More Deduct 5c Per Lb.

Culture. Corrects do best in warm deep. 61 Hulf-Long Orange 6

Cauliflower

Culture. For earliest Cauliflower, raise plants by sowing in hotbed or greenhouse during January or February, and transplant to flats or cold frames, 2 or 3 inches apart each way. Set in open ground as soon in Spring as the land can be put in good order. Soil to be a warm, very rich, fibrous loam, well supplied with humus and moisture. Copious water application during dry weather, especially when the plants are heading, and light dressing of nitrate of soda and potash are of much help. Set plants 2 to 2½ feet apart each way. For late Cauliflower to mature during pickling season (August 15 to October 10) start plants in open ground like late Cabbages, and handle them like that crop. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the Sun.

New Century Cauliflower
54. The Best in the World

1. It heads when others fail. 2. Large, perfect heads, measure from 12 to 14 inches in diameter. 3. The beautiful white heads are compact, deep and solid. 4. Heads will outweight those of any other strain. 5. It is the earliest of all Cauliflower, 6. One-third more can be planted on the same space than can be done with other varieties because of its close growing, compact habit. Pkts. 10c, 15c and 25c. ½ Oz. 75c. ½ Oz. \$1.25. 1 Oz. \$2.25. 2 Ozs. \$4.00. ½ Lb. \$7.75. ½ Lb. \$14.50. Per Lb. \$28.00. Postpaid.

In Lots of 5 Lbs. or More 10c Per Lb. Less.

Culture. One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich, mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 5 or 6 Inches high transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, blanch by earthing up. The first operation is that of "handling," generally done by the beginning of September. After the soil has been drawn up with the hoe, it is drawn around each plant by hand to keep the leaves firm in upright position and prevent spreading. When plants have become "set" in an upright position and the Celery is wanted for early use, they should be "banked." This is done by throwing the soil up as close to the plants as possible with a plow and tops of the plants. The method employed now for protecting it is by covering the tops of the banks with waterproof felt paper.

Relegiano's Franch Coldan Salf Rianching Colony.

Bolgiano's French Golden Self-Blanching Celery It is used Exclusively by the Largest and Most Experienced Celery Growers and annually produces Enormous Profits. This is the finest stock in the world. Stands shipment better than any other.

TI. While your can readily afford to put your whole crop in our stock of this most valuable Celery, you cannot afford to let this year go by without growing some of it. We have positively refused to sell any Self-Blanching Celery Seed except this stock. The Celery it produces will not only ship well, but will bring the highest market prices. It will create a new price for your; your commission man can get outside figures for it, and he will sell quickly all you can ship. Try our stock; YOUR PRAISES will be louder than ours. Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, self-blanching to a very remarkable degree; even the outer ribs become a handsome, fresh, clean, yellowish color, with a heart that is large and solid, of a beautiful rich, golden-yellow color. It never becomes stringy or pethy. To fully appreciate its beauty and attractions, it must be seen. Many customers place their orders with us six months before planting time in order to be sure of this stock of seed. Pikt. 10c. ½ Oz. 25c. ½ Oz. 40c. Oz. 70c. ¼ Lb. \$2.10. ½ Lb. \$3.90. Lb. \$7.50. Postpaid

395. Golden Self-Blanching. (American-Grown Seed.) An early sort, requiring but little labor to blanch. Heart rich golden yellow, with light yellowish-green outer leaves. This Celery is in condition for use early in the Fall. Pkts. 5c and 10c. ½ Oz. 15c. Oz. 25c. ¼ Lb. 75c. ½ Lb. \$1.35.

76. Sweet Nut Celery. Most delicious Celery grown. We recommend it for nearby markets and home use. Pkt. 10c, ½ Oz. 15c. Oz. 30c. 2 Ozs. 55c. ¼ Lb. 85c. ½ Lb. \$1.60. Lb. \$3.00. Postpaid.

73. Giant Pascal Celery. This is a large, solid, excellent sort. It blanches very quickly to a beautiful, yellowish-white color, is very solid and crisp, and a fine, nwity flavor. Stalks grow broad and thick, a single branch making a large bunch. Pkts. 5c and 10c. ½ Oz. 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 45c. ½ Lb. 80c. Lb. \$1.50. Postpaid.

# Corn Salad

1 Ounce will sow 20 square feet,6 pounds will sow an acr

Culture. Sow during August or early in September, in drills 1/4 inch deep and 6 inches apart. If the weather is dry when the seed is sown, tread it lightly to insure germination. Keep down weeds with hoe. Just before the Winter cover thinly with straw or leaves.

24. Large German Corn Salad. Used as a salad and for garnishing. Pkt. 5c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

40c. Oz. 70c. ¼ Lb. \$2.10. ½ Lb. \$3.90. Lb. \$7.50. Postpaid

78. Giant Golden Heart a few plants of larger growth. A careful selection mde for many years resulted in the Golden Giant Heart, which excels for larger size, solidity and keeping quality. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ½ Lb. 45c. ½ Lb. 80c. Lb. \$1.50. Postpaid.

72. Perfected White Plume Celery. Is the most extensively used on account of its extreme earliness, Its stalks and portions of its inner leaves and heart are white naturally. By simply tying the plant together, or by drawing the soil firmly against the plant with the hand and repeating the operation to hold the soil already against the plant in position, the work of blanching is completed. Pkts. 5c and 10c. ½ Oz. 15c. Oz. 25c. 2 Ozs. 45c. ¼ Lb. 75c. ½ Lb. \$1.35. Lb. \$2.50. Postpaid.

75. New Winter Queen Celery. (Pedigree Stock.) A good keeper aud beautiful in appearance. Ribs perfectly solid, crisp and of a delicious, nutty flavor. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 45c. ½ Lb. \$1.50. Postpaid.

74. Dwarf Golden Heart Celery, Is crisp, solid, handsome and most excellent flavor, with a beautiful Golden Heart. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 45c. Lb. \$1.50. Postpaid.

Postpaid.

Celery Seed for Flavoring (Soup Celery). Pkts. 5c and 10c, Oz. 10c, ½ Lb, 25c, Lb, 75c.

Cress of Berro o Mastuerzo—Kreffo. Culture, Sow curled or pepper grass thickly, in shallow drills, every 2 weeks. It should be cut often and will continue to grow. It is useful for salad and for garnishing.

520. True Water Cress. Should be sown in damp soil; or if a stream of water can be utilized, they would he much finer. They will thrive well in damp hotbeds. Rightly managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water Cress Seed a strip 4 inches wide on the upper margin of the hotbed, inside the frame, where it is always cool. Pkts, 5c and 10c. 02, 25c. 2 0zs. 45c. 14 Lb. 75c. Lb. \$2.50. Postpaid.

521. Fine Curled or Pepper Grass. Pkt. 5c. Oz. 10c. 14 Lb. 25c. Lb. 75c.

Culture for Root Celery. Sow the seed at the same season and give the same treatment as Celery. Transplant the young plants to moist, rich soil in rows 2 feet apart and 6 inches apart in the rows.

130. Giant French Celeriac. There is not a single item of interest in the growing and developing of seeds that we pass by without most thoroughly investigating and testing to see if there is something of value to our customers. To prove our watchfulness, we are here introducing the Giant French Celeriac. Many thought the Celeriac, which the Market Gardeners have had for years, was good enough, but we are always on the alert for something better, and are rewarded for our pains by being able to offer this splendid Celeriac. Pkts. 5c and 10c. Oz. 20c. 2 Ozs. 35c. ¼ Lb. 60c. Lb. \$2.00. Postpaid.

83. Large, Smooth Prague Celeriac. A large Celery-flavored root used extensively for flavoring soups, pickles, etc.; also relished sliced as a salad with pepper and vinegar. It is also used to flavor chicken and potato salad. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 45c. ½ Lb. 80c. Lb. \$1.50. Postpaid.

Large German Corn Salad

# Sweet or Sugar Corn

We supply packages of Sweet Corn at 5c and 10c each, Postpaid. One Quart will Plant 20 Hills; 8 to 10 Quarts for an Acre in Hills

Sugar Corn, weight by Parcel Post: Pts., 1 Lb.; Qts., 2 Lbs.; 6 Lbs., Pk.

Culture. Seed of the sweetest varieties is liable to rot if planted in wet or cold ground. Yet if we have an early warm spell in Spring, it may pay us to take some risks. Often the plants, when once up, will escape injury by a belated light frost. Plant in warm soil 5 or 6 kernels to a hill, making the rows 3 feet apart for the dwarf or early sorts and 4 feet apart for the taller late sorts. Hills to be 2 to 3 feet apart in the rows, thin out to 3 plants in a hill. Hoe often and draw soil up to the stem, break off side shoots.

Snow White Evergreen Sugar Corn

# Extra Early Varieties

1051. Double XX Extra Early Adams' Sweet Corn. Two weeks earlier than Extra Early Adams'. Per ear 6c. Doz. ears 60c. Pt. 20c. Qt. 30c. 4 Qts, \$1.10. Pk. \$2.00. Bu. \$7.25.

Bolgiano's Famous New Early Fortune Cucumber

Pkts., Ozs. and ¼ Lbs. Delivered Free. Parcel Post Rates, sec Page 2.

# Cucumber

One ounce will plant fifty hills, two pounds wi'll plant one acre.

Culture. For very early, sow in hotbeds upon pieces of sod, or in small pots; they can be readily transplanted with a gain of about six weeks before they can be sown in the open. Plant out in rich soil when danger of frost is over, or protect by hand glasses, or by paper held down at the corners with earth. For general crops sow in the open as soon as the weather is settled and warm, and every two weeks for a succession. For pickles sow from middle of June to Fourth of July. Sod land, turned over in the Fall, is the best for them. Plant in hills 4 feet apart, putting shovelful of well-rotted manure in each hill.

394. Bolgiano's New "Crystal Springs" Cucumber. New 1918 introduction. Extra early, heaviest yielding, continuous bearer. Attractive rich, glossy, deep green color. Deep green to the very tips. Mildew-proof, never turns yellow. Perfect in shape, color and size. No misshapen fruits or curls. Flesh firm, fine grained and tender. The quality is superb. Most refreshing and delightful flavor. Entirely free from bitterness. Very few seed. Fine for slicing. The ideal Cucumber for either shipping, market or home use, Pkt. 10c. 0z. 15c. 2 0zs. 25c. 14 Lb. 45c. 1/2 Lb. 80c. Lb. \$1.50. Postpaid.

84. Bolgiano's Early Fortune Cucumber. Full blooded, as pretty as a picture, and extremely early, wonderfully productive, a model in shape, of the most inviting and attractive deep green color. Without a doubt the finest in the world. Pkt. 10c. Oz. 10c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c. Postpaid.

17. Bolgiano's "Prosperity" White Spine Cucumber. New introduction. This wonderful new Cucumber will immediately iumn into the utmost favor with shippers, market gardeners and private gardeners. It absolutely has no equal; it will bring prosperity to you quick. Pkt. 10c. Oz. 10c. 2 Ozs. 15c. 4 Lb. 25c. 4 Lb. 40c. Lb. 75c.

135. New Klondike. Very dark green, 6 or 7 inches long and two inches thick, remains crisp a long time. It is a grand market sort. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/4 Lb. 40c. Lb. 75c. Postpaid.

82. Lord Baltimore. The wonderful Dry Weather Cucumber. Dark green, 15 inches long. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c. Postpaid.

544. Davis Perfect Cucumber. A very good dark green, white spine Cucumber, originated by the same Michigan Market Gardener who originated the Davis Wax Bean, Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c. Postnaid.

19. The "Henderson" Perfection White Spine Cucumber, A uniform, beautiful type of Cucumber, of a rich, deep green color, crisp and good flavored. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 70c.

85. Arlington White Spine. Beautiful in shape, color, and of the finest quality. The fruit is long, cylindrical, dark green with very white, crisp and tender flesh of excellent flavor. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 14 Lb. 20c. 12 Lb. 35c. Lb. 69c.

338. New Century. A fine, new White Spine, 8 to 10 inches in length. The fruits are smooth and regular, a rich, dark green in color, the blossom end full and round. The skin is quite thin and tender, flesh pure white and crisp. Pkt. 5c. Oz. 10c. 14 Lb. 20c. Lb. 65c.

90. New Extra Early Evergreen, White Spine Cucumber. Prolific dark green. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 65c.

340. Fordhook Pickling, A very prolific pickling, Pkts. 5c and 10c, Oz. 10c. 2 Ozs. 15c. ½ Lb. 25c. ½ Lb. 40c. Lb. 70c.

95. Improved Jersey Pickle. It is medium in length, very shapely, prolific and holds its color. Pkt. 5c. Oz. 10c. ¼ Lb. 20c. Lb. 65c.

92. New Excelsior Long Green Cucumber. It is a model for size, form and beauty. Deep green color, and an abundant cropper. For table use and pickles. This sort runs so uniform that the Cucumbers look as if they had all been selected. Pkt. 5c. Oz. 10c. 1/4 Lb, 25c. Lb. 70c.

398. Early Green Cluster Cucumber. Most desirable for pickling. Very prolific. Sets in clusters of 2 and 3. Continues long in bearing. Pkt. 5c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c.

88. New Extra Long White Spine Cucumber, or Ford Hook Famous. Skin very deep green; flesh greenish white, firm and umusually crisp. The plant is a strong grower; leaf large and of a deep green color. The fruit is long (12 to 17 inches), smooth, slim and uniform. Owing to its large, thick, heavy leaf it withstands attack of insects. Its Northern origin insures hardiness and vigor. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15e, ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c.

86. Improved Extra Early White Spine. Produces Cucumbers of finest form and most salable size for shipping purposes. Dark green color. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 14 Lb. 20c. 12 Lb. 35c. Lb. 60c.

87. Thomas' Perfection Early White Spine. A selection from the famous Arlington White Spine. It is regarded as far superior to that variety. Pkt. 5c. Oz. 10c. 44 Lb. 20c. Lb. 65c.

93. Bolgiano's New Prolific Pickling. Bears fruit from the time it first starts until frost. Vines are strong and vigorous, yielding immense quantities of fruit, and remains in a fresh, healthy growing state longer than any other sort. Skin is very thin, tender, and quite free from toughness when pickled. Pkt. 5c. Oz. 10c. 14 Lb. 20c. Lb. 65c.

236. Boston Pickling. Fruit short, smooth and pointed at each end; light green, a great yielder; one of the best for pickling. Pkt. 5c. Oz. 10c. 14 Lb. 20c. Lb. 65c.

208. Chicago or Westerfield Picking Cucumber. Fine for Market Gardeners. Medium length, pointed at each end, large spine, deep green, very prolific. A fine pickling variety. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 65c.

97. Thorburn's Everbearing. Sets fruit very early and continues to blossom and fruit until killed by frost; good pickler and slicer. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c.

98. Improved Long Green. Pkt. 5c. Oz. 10c. ¼ Lb. 25c. Lb. 70c.

94. Early Frame, or Early Short Green. Desirable for producing pickles of medium size and fine quality. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 65c.

518. West India Gherkin. This is the only genuine Gherkin. It is small, oval and covered with spines, color light green. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c. Postpaid.

517. Japanese Climbing Cucumber. Used as a beautiful vine and also for its fruit. Pkt. 10c. Oz. 10e. 4 Lb. 25c. Lb. 85c. Postpaid.

573. Wild Cucumber. Quickly produces a very luxuriant climbing viue, filled with an abundance of beautiful flowers; the fruit is often used for pickling. Pkt. 10c. Oz. 15c. 14 Lb. 25c. Lb. 85c. Postpaid.

342. The New Lemon Cucumber. It has a thin skin, is crisp, tender and sweet. Can be used sliced, whole or as pickles. Pkt. 10c. Oz. 15c. 2 Ozs. 25c. 34 Lb. 45c. 42 Lb. 80c. Lb. \$1.50. Postpaid.

384. Cool and Crisp. This is the earliest and one of the most prolific pickling Cucumbers. The Cucumbers are of a dark color, straight, long, even and slim. They are very tender and crisp. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 65c.

New York Improved Purple Egg Plant

One Ounce will produce 500 Plants. Egg Plant Pkts., Ozs. and 44 lbs. Delivered Free

Culture. Sow in hotbcds very early in Spring and transplant when 2 inches high into a second bed or into small pots. If this is not done, thin to 4 inches apart. Do not plant out until weather is perfectly settled and warm. Cool nights or wet weather will check them. Keep some back in frames for a second planting, in case of weather changing unexpectedly. Set out plants 3 feet by 2.

100. Bolgiano's Black Beauty Egg Plant. The earliest and best of all large fruited Egg Plants, Pkts, 5c and 10c. ½ Oz. Oz. Oz. 40c. 2 Ozs. 70c. ¾ Lb, \$1.35, ½ Lh. \$2.40. Lb, \$4.50. Postpaid.

One Ounce Will Produce About 5,000 Plants.

Kale

Pkts., Ozs. and 1/4 Lbs. Delivered Free.

Culture. The Kales are more hardy than Cabbage, make excellent greens for Winter and Spring use, and are improved by frost. Sow from May to June, and cultivate the same as Cabbage. For early Spring use sow in September, and protect during Winter. Some of the varieties are so bardy that the green leaves may be dug out from under the snow in Winter and be used for greens.

113. Bore Cole or Kale. Hardy Winter Spargel Kohl. The most salable, delicious and tender of all Winter Kales. About Baltimore it is sown in May, and transplanted like Cabbage to stand over Winter. It is taller than the extra dwarf varieties, and when the leaves are stripped or fall off, new tender leaves quickly grow out. Then they are again stripped off and used for marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing money during Winter months when most all vegetables are scarce. Sold out immediate delivery. Write for prices Spring Delivery.

immediate delivery. Write for prices Spring Delivery.

112. Extra Dwarf Green Curled Scotch, or Norfolk Kale. One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter where temperature does not go below zero. Very dwarf and spreading, rarely exceeding 18 inches in height. Leaves are a bright green color, beautifully curled and produced in great abundance. Pkts. 5c and 10c. Oz. 20c. ½ Lb. 60c. ½ Lb. \$1.10. Lb. \$2.00.

108. New Imperial, Very Curly, Long Standing Kate. Beautifully curled and crimpled sort; strong, vigorous habit, perfectly hardy, bright green color; very attractive in appearance; superior to all late sorts; will stand longer without shooting to seed than any other variety. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. ½ Lb. 30c. Lb. 50c.

351. Spring or Smooth Kale. Ahardy, quick growing, smootb leavedvariety. The best for Spring sowing, but largely sown in the Fall, making greens earlier than the W nter varie-ties. Pkt. 5c. Oz. 10c. ½ Lb. 15c. Lb. 25c.

109. Curled German Kale. Hardy; stands the frost of our severest Winters; grows rapidly, dwarf babit, heautifully curled. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 50c.

110. Siberian Curled Kale. The green leaves are very large and comparatively plain in the center, but beavily curled on the edge. It is a fast grower, extremely bardy and will stand longer in the Spring without botting than any other variety. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 50c.

512. New American, Extra Curled Long Standing Kale. Of a beautiful green color. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 20c. 1/4 Lb.

# Leek

Culture. Sow early in April in drills 1 foot apart and 1 inch deep. When plants are 6 to 8 inches high transplant in a deep, rich soil in rows 12 inches apart and 6 inches in the rows as deep as possible, so that the neck may be covered and blanched; draw the earth to them as they grow.

Bolgiano's Famous Mammoth King Leek

114. This stock we have by years of selection built up until it has become to those who use it a pleasure to grow and a profit, too. It has a handsome form, is very mild, agreeable in flavor, grows to double the size of ordinary varieties, is pure white, has attractive, dark-colored leaves, is stout in hahit and hardy. The edible part is 8 to 15 inches long and 3 to 5 inches in diameter. It is without exception the largest and best Leek ever placed in the hands of the grower. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 45c. ½ Lb. \$1.35. Lb. \$2.50.

546. Monstrous Carenton or Scotch Champion. Very large, hardy and productive; popular for market. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 40c. ¼ Lb. 65c. ½ Lb. \$1.20. Lb. \$2.25. 116. Tall Mixed. Pkt. 5c. Oz. 15c. 2 Ozs. 20c. 1/4
Lb. 30c. Lb. \$1.00.

# Mushroom Spawn

Mushrooms

Culture. Mushrooms may be grown in cellars, under benches in greenhouses, or in sheds wherever the temperature of 50 degrees can be kept up during the Winter. The beds should be made from November to February, according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse dung, free from straw and litter, and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent it from heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep and any length desired are the proper proportions for a bed, but this may be varied. Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of a spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees make holes in the bed about a foot apart each way, into which put pieces of spawn 2 to 3 inches in diameter: fill up the hole with compost, and at the expiration of a week or 10 days the spawn will have thoroughly diffused itself through the bed. Spread layer of soil over the heap to the deepth of 2 inches, and cover with 3 or 4 inches of hay, straw or litter. Examine bed often to see that it does not get dry. Take special care, however, when water is given that it be at a temperature of 100. One brick to a bed 6 feet square.

American Pure Mushroom Spawn. Bricks 25c each; 10 bricks at Imperial Dwa 22½c; 25 bricks at 20c; 50 to 100 bricks at 18c. Short Pod Okra

Imperial Dwarf

Bolgiano's "Long Lost" Lettuce

# Lettuce

Culture. For early Summer use, sow in hotbeds in March, sowing every two weeks for succession. Transplant the young plants to rows 2 feet apart and 8 to 12 inches apart in row. For Winter use, sow in August, transplant to frames: and for this purpose the early heading varieties, such as the Millionaire Lettuce, are best adapted. The Cos varieties require to be tied up for a few days in order to properly blanch them.

# **Earliest Varieties**

Earliest

380. "Long Lost" Lettuce. Produces large, extremely solld, compact cabbage heads. It is a reliable sure header and is very hardy. It stands the cold. It will Winter over better than Big Boston Letturee. "Long Lost" Lettuce has both shipping and eating qualities, decidedly buttery in flavor, sweet and tender. Of a solid, bright, attractive green, never spotted or brownish in any part. As a shipper "Long Lost" Lettuce far surpasses every other Lettuce, including the Big Boston. Supply very limited. Pkts. 10c and 25c. ½ Oz. 25c. Oz. 50c. 2 Ozs. 80c. ½ Lb. \$1.40. ½ Lb. \$2.65. Lb. \$5.00. Postpaid.

193. "Bully Good" Lettuce. No matter whether the market price is up or down, there is always a market for "Bully Good" Lettuce. Those fine, large, solid heads—a full bushel market box is barely large enough to hold 1s of them—of a bright, rich, exquisite green; with a full, solid, rich, golden yellow heart closely folded; crisp as ice; with a mild, delicious flavor, do you wonder we have named this grand Lettuce "Bully Good." The market Gardener with bis neighbors beat to a standstill. Every one who grows for Market or eats "Billy Good" Lettuce will cheerully admit it is worthy of its name. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25. Postpaid.

131. "Best of All" Lettuce. A sure cropper. Spring.

cheerfully admit it is worthy of its name. Pkts. 5c and 10c. 0z. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25. Postpaid.

131. "Best of All" Lettuce. A sure cropper, Spring, Summer, Fall or Winter. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25. Postpaid. 156. Big Boston Lettuce. Bolgiano's Famous Stock. Big Boston Lettuce is the most valuable Lettuce in cultivation; its excellent qualities have made it the most popular and most extensively used Lettuce in the world. It can be grown in the open ground for Summer or Fall, in frame for Spring or forced cool in greenhouses for Winter use, producing under each condition grand, large, buttery, yellow heads, filled with sweet, crisp, tender, beautifully blanched leaves. Stands long without going to seed; has few outer leaves and makes a large, attractive plant, Big Boston Lettuce is specially adapted to cool, open ground culture. Our stock of this famous Lettuce is the finest in the World. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c. Postpaid.

137. Black Seeded Tennis Ball or Boston Market. One of the very best for either forcing or early out-door planting. Plants good size. leaves are of good substance and of attractive, dark green color. Heads are solid, crisp and tender. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 25c. Lb. 75c.

155. New Lettuce, "Unrivaled." An improvement on the Big Boston Lettuce, possessing earliness, large size, at-tractive color, etc. It can be sown almost the whole year around; it resists the Summer heat, is crispy and solid. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. 1/4 Lh. 25c. Lb. 75c. Postpaid

tractive color, etc. It can be sown almost the whole year around; it resists the Summer heat, is crispy and solid. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lh. 25c. Lb. 75c. Postpaid.

150. Millionaire Lettuce. Unquestionably the Earliest and far better than any other extremely early large beading Lettuce. A Lettuce fit for a king. Pkts. 5c and 10c. ½ Co. 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25. Postpaid.

352. May King. A handsome, light green, heading variety of medium size and excellent quality. Out-doors the heads mature exceptionally early, attaining a size suitable for use before other sorts, and often the edges of the outer leaves have a brownish tinge. The plant is very compact for so large a head. It is very satisfactory also for forcing under glass. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c.

122. Improved White Loaf Lettuce. After the most careful cultivation and rogueing, we have established the trucst and most uniform strain of improved White Loaf Lettuce. It is planted largely in the Fall and allowed to remain in the open ground all Winter. In the earliest Spring it quickly forms most delicious, large, light-colored Lettuce heads. As a frame Lettuce it bas no equal, often 18 heads have brought \$2.50. wholesale. If planted in early Spring, it quickly forms heads and can be brought to market long before other Lettuce. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c. Postpaid.

126. New Early Spring Lettuce. In the Early Spring months this splendid Lettuce produces large cabbage-like heads, which are uniform, tender, crisp and sell at highest possible prices. Our most critical Market Gardeners, year after year, hank on this Lettuce. It is also good for late Summer sowing to produce Fall Head Lettuce. Pkts. 5c and 10c. Oz. 10c. 2 Ozs. 15c. ½ Lb. 45c. ½ Lb. 45c. Lb. 85c. Postpaid.

399. Burpee's Wayahead Lettuce. Shows a remarkable combination of earliness, firm heading character, handsome appearance and fine quality. Both in cold-frames

# Heading Lettuce Pkts., Ozs. and Delivered Free.

# Orange Fleshed Varieties

51. Melting Gold Rocky Ford Cantaloupe. Simply the most delicious Cantaloupe that was ever eaten. The sweet luscious flesh is as yellow as melting gold. It is the best eating Cantaloupe in the world and a splendid, profitable shipper. Pkts. 5c and 10c. Oz. 15c. 2 Oz. 25c. 1/4 Lb. 40c. 1/2 Lb. 70c. Lb. \$1.25. Postpaid.

Shipper. Prks. Sc and 10c. Oz. 10c. 20z. 25c. 44 Lb. 70c. Lb. \$1.25. Postpaid.

574. Salmon Fleshed Eden Gem. Outward appearance is identical with the Eden Gem, but a trifle more uniform in size; it is the best long-distance shipping Rocky Ford strain, with a new delicious flavor and color of flesh. One of the closest netted of all melons. It is unequaled in hardiness, prolificness and disease resistance. It originated with Professor Blum, of the Colorado Experiment Station. The color is almost invariably salmon, if cut at the right stage. Supply of seed very limited. Pkts. 5c and 10c. 0z. 10c. ½ Lb. 25c. Lb. 65c.

518. Burrell's Gem. The fruit is of good size, handsome appearance and fine flavor. The skin is a rich, dark green, contrasting finely with the deep orange-salmon colored flesh; sweet, tender. Pkts. 5c and 10c. 0z. 10c. ½ Lb. 25c. Lb. 60c. Postpaid.

164. Paul Rose. The fruits are nearly round, ribbed and heavily netted. The flesh is thick, of rich, deep orange color, and ripens close to the rind, with small seed cavity. It is an excellent shipper. Pkts. 5c and 10c. ½ Lb. 20c. ½ Lb. 35c. Lh. 65c.

162. Orange-Fleshed Osage. The fruits are larger than those of the Emerald Gem; nearly round in form, but having the same distinct dark green skin with lighter hands.

those of the Emerald Genr: nearly round in form, but having the same distinct dark green skin with lighter bands between the ribs, and thick, firm, orange flesh of fine quality. Pkts. 5c and 10c. Oz. 10c. 4 Lb. 30c. ½ Lb. 50c.

169. Emerald Gem. The melons are about the size of Netted Gem. The flesh is of a beautiful salmon color and is peculiarly crystalline in appearance, the flavor is sweet and luscious beyond description. Pkts. 5c and 10c. Oz. 16c. ¼ Lb. 30c. Lb. 90c.

Packets, Ounces and ¼ Los. Delivered Free.
Parcel Post Rates, see Page 2.

Culture. Melons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, in hills 5 to 6 feet apart each way for Muskmelons; 8 to 10 feet for Watermelons. Previous to sowing the seed mix a few shovelsful of well-rotted mannre in each hill, and plant in each 12 to 15 seeds; after all danger of the bngs is over, thin out to three or four plants per bill. A few hills for early use may be had by sowing on pieces of sod in a hotbed, and when warm enough transplant to open ground. Melon vines are subject to the same destructive insects and fungous foes as are Cucumber and Squash vines. Early and repeated

are Cucumber and Squash vines. Early and repeated spraying with Bordeaux Arsenate of Lead Mixture is always advisable for these crops.

In Lots of 5 Lbs. or More Deduct 5c Per Lb.

### Green Fleshed Varieties

Green Fiesned Varieties

16. "Junior" Rocky Ford. A little larger, two weeks earlier, twice as prolific as Rocky Ford. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25. Postpaid. 450. Honey Dew. The new Melon. Average size 6 inches in diameter and 7 to 8 inches in length. Weight averages 8 to 10 pounds. The skin is smooth and the gind, though thin, is very tough. Will keep until Christmas. Creamy yellow when ripe. Flesh an emerald green. Can be eaten to the extreme rind. Is a good shipper. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25.

7. Watters' Improved Solid Net Rocky Ford Canta-

25c. ¼ Lb. 40c. ½ Lb. 70c. Lb. \$1.25.

207. Watters' Improved solid Net Rocky Ford Cantaloupe. This is the earliest strain of Rocky Ford Cantaloupes. The meat is light green, spicy and sweet. The heavy gray netting is closely laced. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c. Postpaid.

401. Delicious Gold-Lined Rocky Ford Cantaloupe. This strain of the Eden Gem type is the result of several years' selection by one of the most progressive farmers of Rocky Ford, Colo. Shape is ideal, very slightly oval, no ribs, and it is heavily netted over the entire melon. The bloom button is small and flesh as thick at the end as elsewhere. The melon is thick meated, fine grained and sweet: color, green, with a gold margin next to the seed cavity. Uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Pkts. 5c nd 10c. Oz. 10c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c. Postpaid.

167. Eden Gem or Netted Rock Rocky Ford Cantaloupe. This magnificent new Muskmelon is a selection of the old Rocky Ford, which it completely surpasses in lusciousness, yield, carrying, and good selling qualities. In shape it is somewhat longer and a trifle larger and closer and deeper netted. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c.

234 Pollock Rocky Ford Cantaloupe. A rust-resisting

Lb. 65c. 334. netted. PKts. 5c and 10c. Oz. 10c. ½ Lb. 20c. ½ Lb. 35c. Lb. 65c. 334. Pollock Rocky Ford Cantaloupe. A rust-resisting melon, with netting over the blossom end; not a long melon, but rather inclined to be short, with the finest shipping and eating qualities. The selections from time to time have reduced the size; now they crate nicely. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. ½ Lb. 35c. Lb. 65c. 337. Knight, or New Maryland Cantaloupe. A very pepular melon with large growers and shippers; somewhat larger than the Rocky Ford or Netted Gem. We offer the original stock, which is very fine. Pkts. 5c and 10c. Oz. 10c. 20zs. 15c. ½ Lb. 25c. ½ Lb. 45c. Lb. 85c. 111. Norfolk Button. They are excellent little melons. Very early in maturing, thick, green flesh, uniform in size, and with an occasional button at the blossom end. Delicitously sweet. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 65c. 168. Improved Jenny Lind. The Jenny Lind is the earliest small to medium sized melon known. It is very uniform in size, well netted and with thick meat. Small seed cavity. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 20c. Lb. 65c. Baltimore Nutmed Cantaloupe

uniform in size, well netted and with thick meat. Small seed cavity. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 65c.

Baltimore Nutmeg Cantaloupe
The Original Stock. Finest on Earth.

170. Is delicious in flavor, attractive in form and color, and unexcelled as a shipper. Our seed of Baltimore Nutmeg Cantaloupe is produced under a bracing, clear and invigorating climate. This insures a parent stock of the finest flavor. We recommend this melon, and firmly believe the cash balance of every trucker will be materially increased if he grows our superior stock of Nutmeg Cantaloupe. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 65c. Postpaid.

547. New Ford Hook. This melon is a cross between the Emerald Gem and Improved Jenny Lind. It has very thick, deep, salmon-colored flesh, surpassingly sweet to the very rind. It is quite early, vigorous in growth, and extremely prolific. Price: Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 60c.

353. Extra Early Osage Gem. Round, well netted, thick, deep salmon-colored flesh, small seed cavity, delicious flavor. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 60c.

354. Ferry's Defender. Medium size, flesh firm, fine grained, rich, deep yellow, highly flavored. A splendid shipper. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 60c.

528. Banana. The deep, golden flesh is of exquisite flavor. It looks and smells like a hanana. Not a mere curiosity, hut is in such favor as to command prices from 50c to \$1.00 for a single specimen. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c.

"General Pershing" Watermelon

### WATERMELON

Culture. The soil for Watermelons must be light, rich and sandy, for if grown on a heavy soil the quality will be poor, and they will not be so early. When there is no more danger of frost drop 8 to 10 seeds in hills 8 to 10 feet apart each way, covering about ½ inch deep. As soon as plants commence to run, thin out to 3 best plants in a bill, and cultivate until the vines cover the whole ground. If slow to fruit, pineb off the ends of the growing shoots. Ash or air-slaked lime sifted on the young plants while dew is on is good to keep insects out. One ownce will plant about 30 bills, and it takes 3 to 4 pounds to an acre.

146. Goliath. The New Giant Watermelon; large, enormously productive; bas a rich, dark green skin; fine quality, remarkable sbipper. Pkts, 5c and 10c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 35c. Lb. 60c. Postpaid.

172. Indian Chief, Bolgiano's Wonderful New Watermelon. Distinct from all other varieties. Has created a sensation. Pkts, 5c and 10c. ½ Lb. 35c. Lb. 60c. Postpaid.

sensation. Pkts. 5c and 10c. 74
Postpaid.

One quart will plant about 100 feet of drill. One and one-half to two bushels for an acre.

Those Marked With a Star (\*) are wrinkled marrows, and unless otherwise stated should be sown thicker than and Peas, and not until the ground has become warm, as they are more liable to rot. They are the finest flavored of all Peas.

Extra Early Dwarf Varieties

Extra Early Dwarf Varieties

"EARLY BIRD" PEAS

1048. Bolgiano's New Early Large Pod Pea. A
very early, hardy, large podded 2 to 2½-foot Pea.
Can be pulled as early as Pilot with pods double the
size. A robust grower, heavy cropper, 9 to 10 Peas
in a pod. Can be sown with safety as soon as the
ground can be worked. Sold out immediate delivery.
Write for lowest prices Spring Delivery.

1218. \*"100 Per Cent Profit" Peas. Earlier,
dwarfer, more prolific, more delicious than either the
Gradus or the Thomas Laxton Pea. It is a wonder.
Try it. ½ Pt. 20c. Pt. 35c. Qt. 65c. 4 Qts. \$2.25.
PK. \$4.00. Bu. \$15.00.
1261. Little Marvel Peas. Vines of dwarf, even
growth, averaging 15 inches in height. Heavily set
with fine pods and frequently borne in pairs. Ready
for table fully as early as American Wonder; vines
are larger and produce a much heavier crop. Sold
out immediate delivery. Write for lowest prices
Spring Delivery.

are larger and produce a much heavier crop. Sold out immediate delivery. Write for lowest prices Spring Delivery.

1081. \*American Wonder. It is of dwarf and robust habit. 10 to 15 inches high, and produces a profusion of good-sized and well-filled pods of finest flavor. Height 1 foot. Pkt. 10c. Pt. 25c. Qt. 45c. 4 Qts. \$1.50. Pk. \$2.75. Bu. \$10.00.

1084. \*Extra Early Premium Gem. Early, large, well-filled, straight pods. Height 1 foot. Pkt. 10c. Pt. 25c. Qt. 45c. 4 Qts. \$1.50. Pk. \$2.75. Bu. \$10.00.

1196. \*McLeon's Little Gem. Very early; prolific; delicious flavor. Height 1¼ feet. Pkt. 10c. Pt. 25c. Qt. 45c. 4 Qts. \$1.50. Pk. \$2.75. Bu. \$10.00.

1080. \*Nott's Excelsior Pea. The very best, short vine, wrinkled, extra early Pea. Vines are more vigorous and taller than the American Wonder, and the pods are one-third larger, containing often 6 to 8 large Peas, very close together, and for sweetness and quality has no equal. Height 1 foot. Pkt. 10c. Pt. 25c. Qt. 45c. 4 Qts. \$1.50. Pk. \$2.75. Bu. \$10.00.

1203. \*Sutton's Excelsior. As early as American Wonder, with much larger pods and more prolific. Height 1 foot. Pkt. 10c. Pt. 30c. Qt. 60c. 4 Qts. \$2.00. Pk. \$3.60. Bu. \$14.00.

404 Whitloof Chicory, or French Endive

404. Whitloof Chicory, or French Endive
404. Whitloof is used principally as a Winter salad, and it is most delicious served with French dressing and eaten like Cos Lettuce. The seed should be sown in the open ground not later than Jume, in drills 12 to 18 inches apart, and the seedlings should be thinned out to stand not closer than three inches. The plants form long, parsip-shaped roots which are lifted in the Fall, trimmed of leaves and stored in soil in a cool place until wanted for forcing. The roots should be planted upright about 1½ to 2 inches apart in a trench 16 to 18 inches deep. This will bring the neck of the root to within 9 inches of the level of the trench, which should be filled with light soil. If a quicker growth is desired, a mulch of fresh manure about two feet deep may be used. The roots may also be forced in boxes in a warm cellar, in which case they should be set in fine soil two inches apart and with the crowns two inches below the surface. To exclude all light, the box should be covered with another of the same size, and if water is required it should be slightly heated. It requires ahout one month to force roots. The heads are then cut off with a small portion of the neck of the root attached, Pkts. 5c and 10c. ½ Oz. 15c. Oz. 30c. 2 Ozs. 55c. ¼ Lb. 85c.

Kohl-Rabi

152. "Best-of-Ali" Kohl-Rabi, Comhines the quality of the finest Great varieties. Round like an apple, fine, smooth skin. Leaves very few, stand erect, enabling grower to plant closer and helps him in bunching. Flesh is unsurpassed in tenderness and flavor. "Best-of-Ali" Kohl-Rabi Salsify will not run to seed in frosty weather. Equally valuable for forcing or Salsify open ground culture. Pkts. 5c and 10c. Oz. 25c. 4 Lb. 5c. Lb. \$2.50.

117. Earliest White Vienna. The standard well-known variety most largely used, fine stock. Pkts, 5c and 10c. Oz. 25c. 2 Ozs. 40c. 4 Lb.65c. Lh. \$2.00.

Spinach

1000. Long Season Spinach. This new variety is especially adapted for Summer sowing, as it remains in perfect condition a long time before going to seed. Pkts. 5c and 10c. Oz. 10c. ¼ Lh. 20c. ½ Lb. 35c. Lb. 60c. 5 Lbs. at 50c lb.

Pkts., Ozs. and 1/4 Bolgiano's Giant Pansies Parcel Post Rates, Lbs. Delivered Free. Bolgiano's Giant Pansies See Page 2.

For Spring plants the seed may be sown broadcast from July to September. Cover the seed very lightly with fine soil and press in with a board; then mulch the seed bed with long, loose, strawy manure, to a depth of 3 or 4 inches. The seed will be up in about 10 to 15 days; then remove the straw a little at a time. Transplant the seedlings to beds or frames in September or October, and after a sharp frost, late in November or early December, provide a light or loose mulch of lay, straw or litter. The seed may also be sown indoors in January or February; or in Spring in the open ground, in a shady, cool spot where the plant can be protected from the strong mid-day sun. The soil should be very rich and liberal applications of bone meal should be given from time to time.

<sup>24</sup> The New Spencer Sweet Pea—Fiery Cross

The Wonderful New Spencer Sweet Pea that has Attracted So Much

Attention the World Over

Fiery Cross has all the appearance of live fire, the color being a scorching fire-red, or scarlet, without any shading and which scintillates and glitters in bright sunlight, thus adding a glowing, fire-like sheen which radiates over the flower. Unlike most of the orange-scarlet varieties, it does not scorch or burn even during extended periods of intense sunshine, therefore it can be grown in all soils without shading. The beautiful waved and fluted flowers are borne freely in threes and fours, well placed on long, stout stems. Pkts. 10c and 25c. Oz. 75c. 14 Lb. \$2.50.

22. The Gigantic Orchid-Flowered Sweet Peas, Countess Spencer Type Mixed. This wonderful mixture contains only the rarest and most lovely Countess Spencer varieties, grown separately, then mixed in proper proportion so as to contain all varieties and colors. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.25.

21. Bolgiano's Gorgeous Mixed of Best Tall or Grandiflora Sweet Peas. This wonderful combination of more than 75 distinct varieties of New and Standard Sweet Peas makes it unequal for the vast range of color, both earliness, profusion of bloom and lateness of flowers. The gratifying and wonderful reports we annually receive from growers of our mixture as well as our own experiments permit us to claim we have the finest mixture of Standard Sweet Peas in the World. Pkt.

### BLACK LEAF 40

BLACK LEAF 40

The "sucking" insects feed by inserting their sharp, slender beaks into the interior of the leaf, blossom, etc. They cannot eat plant tissne, and therefore cannot eat poisons, hence must be destroyed with a preparation which kills by coming in contact with their bodies—in other words, by a "contact" insecticide. The most common sucking insects, with soft bodies, are the aphids (plant liee) thrips and leaf hoppers. They may be effectively controlled with "Black Leaf 40," a concentrated solution of nicotine sulphate guaranteed to contain 40% of nicotine by weight. 1 oz, 25c 1/2 lb, \$1.00. 2 lbs. \$3.25. 10 lbs. \$13.75.

### Bolgiano's Poultry Department

Is Equipped to Serve You

Mr. Frederick H. Thayer, personally well known to thousands of our customers, has so successfully conducted our Poultry Department and has, for a number of years, he'ped so many to prohiable success with their poultry, that it seems an opportune time to tell you bow and why Mr. Thayer has been successful.

Mr. Thayer has made the study of poultry and their needs his life work. He owned and managed for twenty years one of the leading poultry farms in New England, located on Cape Cod, Massachusetts, and later he become associated with the largest poultry supply houses in New England. He attended Cornell University, at Itbaca, New York, where he was successful in adding scientific knowledge to his twenty-five years of practical experiences. In this way he has most thoroughly experienced himself, from a scientific, practical and com-mercial standpoint, having always in mind be thoroughly competent to help others to make a success of the poultry industry.

It is Mr. Tbayer's greatest pleasure to answer all of the many perplexing questions pertaining to the poultry industry. It is always a pleasure to him to meet our friends and customers, personally, but as this is not possible, he cheerfully invites your correspondence. Give him as much detail information as is possible regarding your poultry troubles, and it will be bis pleasure to write to you promptly.

pleasure to write to you promptly.

Mr. Thayer personally oversees the mating, breeding and general management of the parent stock or breeders, from which we supply thousands of eggs for batching and baby chickens. Our breeders are all selected for their reproducing qualities, adhering as closely to the standard requirements as is possible, without losing sight of the commercial or dollar-earning qualities. We are using the "Hogan System" in selecting our breeders as closely as is possible without overstepping the bounds, thereby avoiding the danger of weakening the constitutional vigor of the breeders.

In the selection of the breeders, Mr. Thayer is particular to discard any female from the breeding yards that does not produce an egg weighing two ounces or from twenty-four to twenty-six ounces to the dozen. This weight egg brings the highest prices in our city markets.

Place Your Order With Us Now for Bolgiano's "Vital-Hatch" Baby Chicks for 1920 Delivery. Chicks with Vitality.

We ship Baby Chicks from Canada to Florida---Maine to Kansas---All Charges Prepaid---Safe Arrival Guaranteed

We can supply the Leading Varieties which are the most suitable for commercial purposes.

Our first consideration is for Constitutional Vigor and good egg production, within the breed.

The demand for "Vital Hatch" Baby Chicks has increased beyond our fondest expectations. We have purt out more than Two Hundred Thousand Chicks this season, therefore you can readily see that it will be to your best advantage to place your order with us early for your next season, the requirements. season's requirements.

Weather conditions permitting, we will commence hatching in January, 1920.

We are shipping Thousands of "Vital Hatch" Baby Chicks into the Sou hern States and we will have Thousands of Chicks hatched for the Southern trade during January, February and March, as well as later in the season.

### Improved Roller Tray Incubators

No matter how correct the principle upon which an incubator is built, unless high-grade material is used in its construction, it will never prove satisfactory and in a short time be practically worthless. For this reason we have spared no expense in making the Roller Tray Incubator of the hest material obtainable.

The Improved Roller Tray Incubators are finished in natural color, each machine being given a coat of shellac and then coated with varnish specially adapted to withstand heat and moisture. The glass door is of downlet thickness, with air space between.

Prices Complete F. O. B. Baltimore.

No. 2-Incubator, Capacity 100 Eggs. Can Be Heated by Oil or Gas Flame.

### Bolgiano's "Square-Deal" Poultry and Pigeon Foods

Barred Plymouth Rocks

### "SQUARE-DEAL" CHICK STARTER

A Primary Food for Baby Chicks Up to Three Weeks Old This is a primary food for Baby Chicks; contains only the best selected, recleaned, sound, sweet, cracked grains and seeds in proper proportions essential to quick and healthy growth. This food should be fed in litter to induce exercise

### "SQUARE-DEAL" CHICK FOOD Quickly Develops Growing Chicks

This is a carefully selected and complete food for small ks. It is a high-grade mixture of recleaned sound This is a carefully selected and complete food for small chicks. It is a high-grade mixture of recleaned, sound, sweet, cracked grains and seeds, and is an intermediate food for growing chicks too small to eat our Square-Deal Scratch Food. Make them work for it; exercise promotes health and aids digestion.

### "SQUARE-DEAL" GROWING MASH

"SQUARE-DEAL" GROWING MASH

Our growing Mash is a mixture of whole, choice, sweet grains with a little meat added, evenly balanced and ground together in such a manner as to promote the quickest possible growth. Feed dry and you will be surprised at the results. Poultry of all kind when fed dry eat very slowly, mixing it thoroughly with the saliva, and then with the acids of the stomach, consequently there is a slow digesting process going on all day. They never gorge themselves. When four months of age mix one-half Laying Mash with the Growing Mash and watch results.

Bolgiano's "Square-Deal" Beef Scraps or Meat Meal. For success with poultry it is absolutely necessary to give them plenty of animal food. For this purpose "Square-Deal" Beef Scraps are the best food that can be used.

Bolgiano's "Square-Deal" A'falfa Meal is a green food and is very nutritious and appetizing. When fed separately steam well before using.

Bolgiano's "Square-Deal" Crushed Oyster Shells. The best powltry authorities recommend the "Grit-Box" system. Our fresh ground shell supplies Carbonate of Lime to increase the production of eggs. Poultry, pigeon and chick sizes.

Red Millet

### SOLD WITH AN ABSOLUTELY "SQUARE-DEAL" GUARANTEE

Bolgiano's "Square-Deal" Poultry Foods are absolutely the best that can be produced. Our long years of experience have taught us what ingredients and what proportions are necessary to produce good healthy vigorous fowls and increase egg production. Nothing but the finest selected, recleaned sound, sweet cracked grains and seeds enter into the manufacture of our foods.

Owing to the unsettled condition of the grain market it is impossible for us to make prices that will hold, therefore ask that you kindly write us for lowest quotations.

### "SQUARE-DEAL" POULTRY FOOD

A Scratch Food of the Highest Grade-Contains Sunflower Seed

This is a combination of carefully selected, recleaned, sound, sweet grains and seeds—the food that keeps the fowls vigorous and healthy; when fed in deep litter, keeps the fowls active. The busy hen is always profitable.

### 'SQUARE-DEAL" POULTRY MASH MAKES HENS LAY

It is a complete scientifically prepared mash of carefully selected mixture of recleaned, sound, sweet ground grain and green food, etc. It contains proper proportious essential to producing big egg yield.

### "SQUARE-DEAL" PIGEON FOOD-NO. 1

This food is a carefully selected mixture of recleaned, sound, sweet grains and seeds; especially adapted for pigeous and squab fattening. It is exceptionally helpful at moulting time.

### "SQUARE-DEAL" PIGEON FOOD-NO. 2

Wonderful Flying Mixture; without wheat, corn, grit or shell. It is composed of carefully selected, appropriate, recleaned, sound, sweet grain and seed, especially adapted to flying pigeons.

### "SQUARE-DEAL" PIGEON FOOD-NO. 3

Without corn, grit or shell, but contains some wheat. It is composed of carefully selected, appropriate, recleaned, sound, sweet grains and seeds, especially adapted to flying pigeons.

### "SQUARE-DEAL" PIGEON FOOD-NO. 4

This pigeon food does not contain any cracked corn, wheat, grit or shell, but is composed of flint corn and carefully selected, appropriate, recleaned, sound, sweet grains and seeds, especially adapted to fancy pigeons.

# Preserve the Surplus of Your Garden

In half the usual time without the danger of your product spoiling, by using the best Canners and Sealers. We list here only those upon which we can safely place our stamp of approval.

The New Way of Canning No Danger Here of Your Product Spoiling

Thousands of jars of canned products spoil every year because the containers used permit air to enter, causing fermentation. You can be absolutely sure of every jar you put up by using Thrift Jars, endorsed by the United States Department of Agriculture experts' State College demonstrators and private users all over the country.

### It's The Jars That

a sure, safe way of canning at home that Thrift Jars were introduced. Jars made from clear glass, so strong they will withstand the intense heat of canning. Alade so perfect that with the Thrift Cap and a downward press, on the Sealer, you will have an air-tight It was because of the urgent need for

iar that will keep perfectly as long as necessary.

Reep Every Jar This New Way seals them truly seals them air tight, and then place them in your cooker or wash boller for the required length of time. When this has been done your work is over two steaming dairs to handle, with rubbers to adjust and caps to tighten. No loss of juice and delicate flavoring.

Two of Many Glowing Letters Received
"I used last season, with great success and satisfaction, your Thrift Sealers, Jars and Caps. The ense with which the work was done and the assurance of the food keeping perfectly made preserving a pleasure."—Mrs. F. G. Breseton, Potomac Beach, "Last year I used Thriff Scaler and Caps and canned several hundred jars of fruit and vegetables without the loss of a single jar. It is the most sanitary, economical and labor-saving of all methods known."—Mrs. Thomas D. Temple, Scotland Neck N. C.
